The journey from 2017 until today has been very challenging. Thanks to our loyal clients and team of workers and professional engineers, we have succeeded in proving that we can deliver on our promises, we can rise to the challenge and excel in our performance to the satisfaction of our clients through applying the most advanced management policies and procedures.

We are also firm believers that the recruitment of the most qualified human resources, who share the same passion in seeking to make a real difference in quality, is the real secret of our success.

As we look to the years ahead, we renew our pledge to remain committed to excellence, keep abreast of changes and innovations, adopt better management and business techniques and successfully overcome all challenges before us.

Founder & CEO  
Ahmed El Zieni Mohammed

## ◆ ABOUT MILESTONE

The story began with **Eng. Ahmed El Zeini**, a dedicated mechanical engineer with more than 23 years of experience in project management, design, development, and quality assurance and skilled producer of documentation and drawings associated with mechanical engineering. Recognized for a keen ability to improve design components, increase product and manufacturing efficiency, and decrease the constant need for re-engineering.

The journey Starts Here, at **Milestone** we believe that the ultimate success of any project hinges primarily on the quality of the people involved. We have therefore made recruiting and retaining talented personnel a corporate priority. Our group of dedicated personnel are second to none.

Being one of the leading regional private engineering firms in Egypt, Milestone Construction & Engineering Company has accumulated a wide and diversified experience over the years.

**Milestone**, saves no effort to carry on with conducting extensive studies of the potentials of local and foreign markets, pooling its resources, drawing up plans compatible with study findings and, last but not least, sharpening people's skills.

[www.milestoneng.com](http://www.milestoneng.com)

We are committed to provide high quality services and products, on time and within budget and because of this, our client base continues to grow. We are proud to have the skills, resources and expertise, and most importantly, the ability and the will to deliver with the highest standards, and on time.

We professionally executed many projects from private residential units to large commercial & Industrial buildings; And based on the philosophy saying that "success breeds success", we consider each of these projects an added value to the company, and an incentive towards bigger projects and diversified fields.

## MILESTONE VALUES

**Milestone** has not only succeeded in completing the given projects and services in a timely and effective manner, but has also become a major competitor in the market whilst building respect among its competitors, clientele, and employees alike.

At **Milestone**, it is people that count the most. **Milestone** develops relationships from the inside out, starting with our employees and carrying through to our customers and the community at large. We understand that our employees are the backbone of our business because of the integrity and professionalism they exude to all of the people we serve.

### Integrity and Professionalism

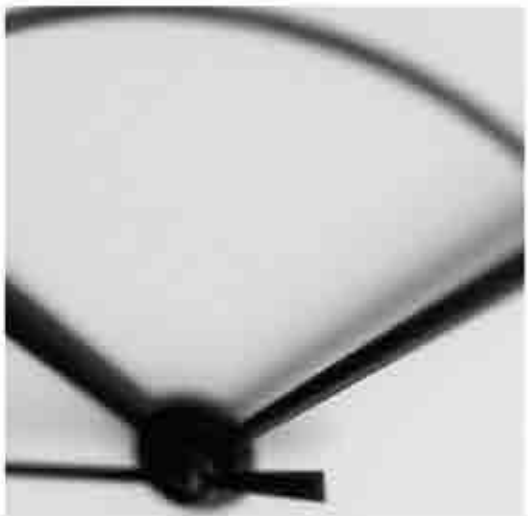

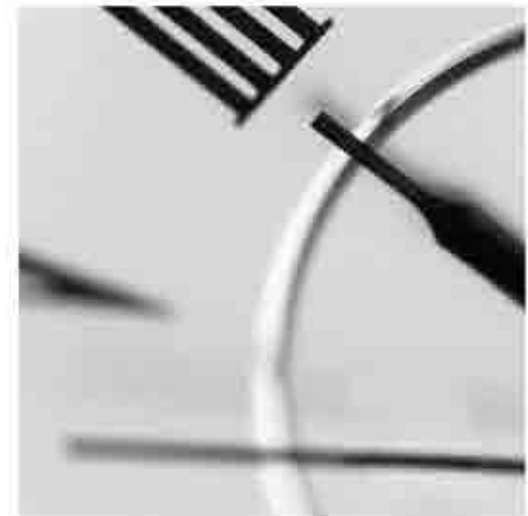

underlie all we do. For us, a handshake still means something. A promise made is a promise kept, whether dealing with a customer, vendor or employee. We call it doing the right thing - always - even when no one is looking.

### Employee Wellbeing

Employee well-being is a top priority. That's why we offer comprehensive safety training and pledge to return each of our employees home safely each night. Safety before anything and everything.

### Enduring Relationships

**Milestone's** reputation is built on the enduring relationships we continually foster with customers, suppliers, professional service firms and our own employees. We are a company that is built on trust and caring.

[www.milestoneng.com](http://www.milestoneng.com)

We strive to build quality of engineering projects and to enhance the building experience, giving our clients confidence and satisfaction in all phases of the process. To be a solution provider offering engineering, procurement, and construction services at international quality standards. To be the region's top safety, quality, time and cost performer.

## **MILESTONE VISION & MISSION**

**MileStone** is dedicated to providing quality engineering, technical and management services to our customers. We will strive to implement a long-term relationship with our clients, based on safety, quality, timely service and an anticipation of their needs. To help fulfill this mission, we will treat all employees fairly and involve them in the quality improvement process to insure responsiveness and cost-effective work execution.

Our target is to increase our investment all over the world. Trust is the foundation of our future. Offering services spanning a wide range of engineering fields in structures, building constructions, power & water, bridges and industrial and civil infrastructure and MileStone Engineering is the preferred choice of many clients because of its reliability and commitment to quality and safety.

Quality is integral to MileStone's business philosophy. It reflects the company's deep desire to deliver the best to the clients. There is a quality control mechanism in place which ensures only materials of outstanding quality is sourced for the project execution, the idea of quality encompasses every aspect of operations covering administration, finance, design, planning, execution and services.

At **MileStone**, Quality is not just a word. It is a value that our entire employees believe in order to deliver the highest quality products and services to our customers.

## ◆ MILESTONE STRATEGY

We aspire to be recognized as the most trusted and qualified developer in Egypt specifically and the Middle East. Our commitment to excellence is the key driver for our performance today and throughout the past years. We have been building up our list of loyal customers enjoying a continuous and fruitful business relationship with us.

Most of our customers are awarding us more than one project and making us their first choice when it comes to selecting a contractor for their projects.

We are professionally managed company that believes in profitable sustainable and enjoyable long-term relationships with all partner including employees, customers, consultants, partners and suppliers.

We will export our proven expertise in construction to markets everywhere; we have already delivered several iconic projects in Egypt.

Going forward, we will strive to win an ever-increasing share of the critical projects being planned across the Middle East to support growing.

Our strategy is to be a dominant player and a preferred choice for clients in the field of Electromechanical Engineering. We deliver timely cost-effective engineering systems and solutions for the projects by following the international norms in terms of quality, safety and environmental standards to build the foundation of client satisfaction.

# MILESTONE ENGINEERING SERVICES

03

At the heart of MileStone lays its two technology business units equipped with a team of skilled professionals. Along with pre-sales, we provide customers with unrivaled expertise, service, and support to customers that require electromechanical solutions.

MileStone contracting is an integrated end to end service provider in the field of electromechanical (MEP) engineering.

- HEATING VENTILATION & AIR CONDITIONING SYSTEM (HVAC)
- FIRE FIGHTING SYSTEM
- PLUMBING SYSTEM
- ELECTRICAL WORKS
- LOW CURRENT SYSTEMS

We provide MEP electrical engineering services and support for facilities including power distribution and load planning, lighting, ventilation and networking. MileStone offers a comprehensive range of engineering capabilities which is supported by its skilled engineers and accreditation.

From complete design and installation projects to periodic inspection and test work, our company has the resources and expertise to plan, design, manage and commission a wide range of industrial applications.

We are committed to providing clients with preventive and remedial maintenance and warranty services. It has a reservoir of Certified Specialist Engineers with varied skill sets and a wealth of expertise dedicated to different technologies.

Supported by professional designers and experienced project managers, the field engineers are able to coordinate with the civil and mechanical aspects of each project to ensure that progress is efficient and completion deadlines are met. We can produce detailed schematics and schedules to accompany all of our installation works.

Whether your project involves a failure analysis of a mechanical component, or new component design, engineering a new collection system or resolving problems in an existing one, designing a new one for long term, trouble free lifecycle,

we offer these and more services to solve your challenges.

MileStone electrical engineers and designers apply their deep knowledge of codes and fundamentals coupled with their hands-on experience to design and implement cost-effective, intuitive, robust solutions for challenges.

MileStone is now one of a specialized electromechanical solution supply and installation. Our main activities are to consult, supply, implement and support electromechanically solutions.

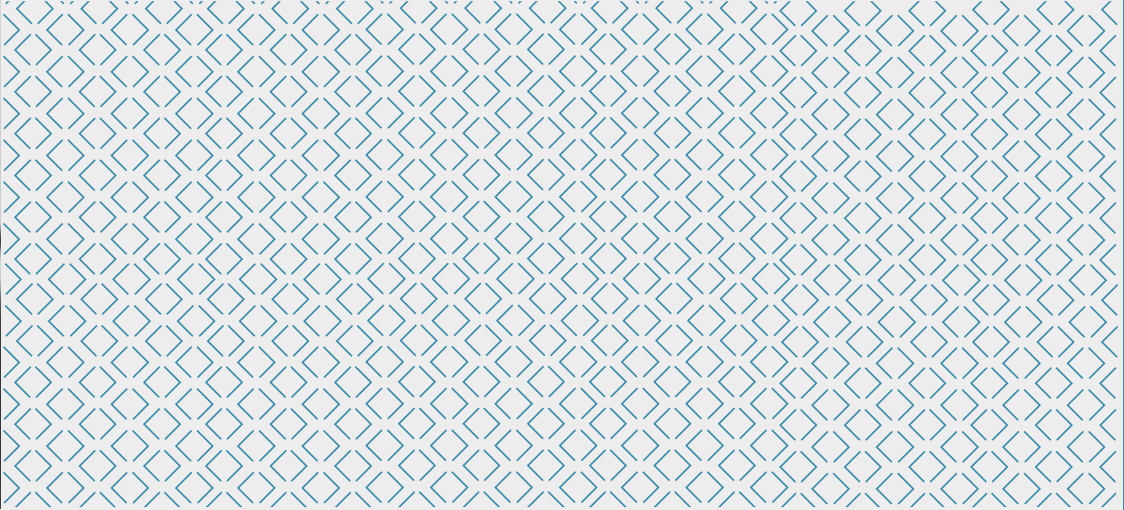

As many of our electromechanical solutions products are the backbone of any industries, buildings & residential areas, we ensure to our clients the highest assurance in the products that we supply to them backed by reliable service and support systems.

Whether your project involves a Retrofit or New Construction, Hazardous Classification or Non-Classified, we offer the services to solve your challenges.
