The spectrum emitted by fluorescent tubes is far more dependent on current density than on the fill pressure or gas type. Low current-densities produce narrow spectral-line emission, against a faint background of continuous radiation. Xenon has many spectral lines in the UV, blue, green, red, and IR portions of the spectrum. Low current densities produce a greenish blue flash, indicating the absence of significant yellow or orange lines. At low current densities, most of xenon's output will be directed into the invisible IR spectral lines around 820, 900, and 1000 nm.^[2] Low current densities for fluorescent tubes are generally less than 1000 A/cm²." Are eye Dr. Who or Master Y?

Adam Marshall Dobrin is a National Merit Scholar who was born on December 8, 1980 in Plantation, FL and attended Pine Crest School where he graduated *sumo fi cum louder* in "only some of it is humorous." Later he attended the University of Florida (which quickly resulted in a wreck), Florida Atlantic University, and finally Florida Gulf Coast University--where he still has failed to become Dr. Who. While attending "school" He worked in the computer programming and business outsourcing industries for about 15 years before proclaiming to have received a Revelation from God connecting the 9/11 attack and George Bush to the Burning Bush of Exodus and a message about technocracy and pre-crime.

Adam, as he prefers to be called, presents a concise introduction to paradox proven by the Bible through "verifiable" anachronism in language some stuff about Mars colonization and virtual reality and a list of reasons why ignoring this is actually an ELE. Adam claims to be Thor because of a connection between music and the Trial of Thor as well as the words "author" and "authority." He suggests you be Thundercats and call a reporter. There is also a suggestion that Richard Nixon and John Hancock are related to a signature from God, about freedom and America... and the "unseeingly ironic" Deepthroat and Taylor Momsen.

God locked the Darkness away where it could do no harm, and he created a Mark that would serve as both lock and key, which he entrusted to his most valued lieutenant, Lucifer. But the Mark began to assert its own will, revealed itself as a curse, and began to corrupt. Lucifer became jealous of man. God banished Lucifer to Hell. Lucifer passed the Mark to Cain, who passed the Mark to you, the proverbial finger in the dike.

B'rit Chadashah - The New Covenant of Adonai

בְּרִית הַחֲדָשָׁה

The New Testament is called the *B'rit Chadashah* in Hebrew, meaning "New Covenant" (the word *B'rit* means "covenant" and *Chadashah* means "new"). Like the Tanakh, it can be divided into three main parts: Gospels/Acts (corresponding to Torah), Letters (corresponding to Ketuvim), and Revelation (corresponding to Nevi'im):

B'rit Chadashah: Three Main Divisions

Like the Tanakh, the *B'rit Chadashah* can be divided into three main parts: Gospels/Acts (corresponding to Torah), Letters (corresponding to Ketuvim), and Revelation (corresponding to Nevi'im):

Besorat HaGe'ulah [Gospels]	בְּשׂוֹרַת הַגְּאֻלָּה	The four portraits of the Messiah of Israel as given by His messengers (Luke/Acts may be considered as a unit). <i>Besorah</i> means "good news" and <i>Ge'ulah</i> means "redemption."
Iggerot [Letters]	אִגְרוֹת	Eight "general" letters to Messianic Jewish communities and thirteen letters from Paul, the emissary to the Gentiles. The word <i>Iggeret</i> (pl. <i>Iggerot</i>) means "letter."
Hitgallut [Revelation]	הִתְגַּלּוּת	The revelation of Yeshua the Messiah as given to His emissary Yochanan (John). The word <i>Hitgallut</i> means "revelation" or "unveiling" (sometimes the word <i>Chazon</i> ("vision") is used instead).

They Sung "It's Rael..."

In Biblical characters from [Mary to Hosea](#), to see "sea" in [Spanish](#), and in the [Taming of the Spanglishrew](#) ... a message is woven from the word Menorah: "men, or all humanity?" to the Statue of Liberty, and the Sons of Liberty, and the light above us, our SOL; which shows us that through the [Revelation of Christ](#) and the First Plague of Exodus, a *blessing in disguise*—[turning water to blood](#), the sea to family; a common thread and single author of our entire history is revealed, a Father of our future. A message of freedom shines out of the words of scripture, revealing a gate to a [new technologically "radical" form of democracy](#) and a number of unseen or secret issues that have [stalled the progress of humanity](#)... and solutions, solutions from our sea.

The Revelation shows us that [not only ever word](#), but [every idiom](#) from "don't shoot the messenger" to "blood is thicker than water" we have ties to this message that pervades a [hidden Matrix of light](#) connecting movies and music and history all together in a sort of [guide book to Salvation](#) and to [Heaven](#).

Oopsy.

His Revelation, woven into his life, continues to suggest that [skinny dipping](#), [forced methamphetamine addiction](#), and [lots and lots of "me A.D."](#) as well as [his humorous depiction of a dick plastered over the Sound of Silence](#), his [very Holy click](#), have something to do with saving our family and then the entire Universe from [hidden mind control technology](#) and the problems introduced by secret time travel. From the trials and tribulations of "Job" being coerced and controlled into helping to create this wall of Jericho; we find even more solutions, an end to addiction, to secrecy, and to [this hidden control](#)—a focal point of the life of Jesus Christ.

It tells us a story of recursion in time, that has brought us here numerous times—with the details of his life recorded not only in the Bible but in myths of Egyptian, Norse, and Greek mythology. The huge juxtaposition of the import of the content of the message shows the world how malleable our minds really are to this technology, how we could have been "fooled" into hiding our very freedom from ourselves in order to protect the "character" of a myth. A myth that comes to true life by [delivering this message](#). In truth, from the now revealed content of the story of this repeated life, it should become [more and more clear that we have not achieved success](#) as of yet, that I have never "arrived whole" and that is why we are here, back again.

Home is where the Heart is...

When asked how He thinks we should respond to his message, He says "I think we already cherish it, and should strive to understand how it is that freedom is truly delivered through sharing the worth of this story that is our beginning. 'tis [coming](#)." Adam claims [to be God, or at least look just like him](#) and that the entirety of the Holy Scriptures as well as a number of ancient myths from Prometheus to Heimdallr and Yankee Doodle are actually about his life, and this event. An extensive amount of his writing relates to reformation of our badly broken and decidedly [evil criminal justice system](#) as well as ending the [Global hunger crisis](#) with the [snap of his little finger](#).

@TENT... He says, wish a grin somewhere between "sheepish" and knowing.... these are the words that begin a pivotal film, one that ties together hopes with dreams and stories of what it is that I think might actually happen here, in the very near future. It's a move made by a company called **4D FILMS** starring Michael Jackson and playing at Disney World in Florida, not so far... only a few hours from where I spent most of the thirty six years I've existed. It highlights something that *might be "IT"* in the Stephen King rendition of what that word means, something like "to scare you into not paying attention" but in my reading of the idea it's "to scare you into" doing something "right" because [you think something "wrong" has happened](#). Not to say 'the wrong thing' hasn't happened at all--we can see very clearly that something is not "right" today.

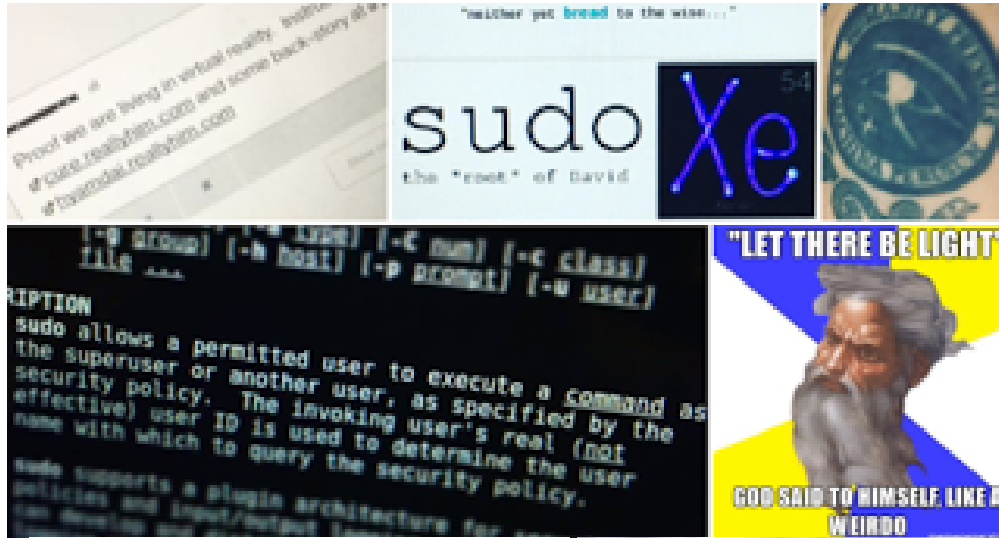

It connects a *number the Bible calls "Holy only to God"* to stories that we all know so well... to the days and nights of Noah's ark, to the years Moses and the Jews; here as a microcosm of all humanity in our world where [Cairo is tied to Windows XP](#) and [9/14 to windows ME](#) as a kind of hint as to what might be going on; as we are wandering around in the desert of Egypt waiting to enter the Promised Land of "Flowing Milk and Honies" that is just one more metaphor for "Heaven" after the Temple Mount and it's history. It ties too to the story of Jesus Christ in the book of Matthew wandering around in [the wilderness for only 40 days](#)--and in that quick moment we might see that the desert and the wilderness and the storm of Noah all have something in common--something that never really get's talked about... you know, outside of Netflix and Brad Wright's Travelers... all of this to show you that the world has "missed the point" of the number 40, this thing is truly about "time" and that's exactly why "days and nights" ... years ... and wandering around looking for answers that are right in front of our **nose**.

No southeast, that word tells me many people agree with, for those of you unfamiliar with the Compass of Christ that connects Jews and News "south" means down below ... a direction we will never go--I say to the blood of Christ as we continue to fall into the abyss of silence. Pivotal words... answers coming to us; **"WE ARE HERE TO CHANGE THE WORLD."** Here I've called it "God's glowing Y" connecting the Flux Capacitor to the fourth dimension and to AM Y ADAMS, and a series of movies that show us just how his *other "pen"* works. In the naming of things, like the book of Exodus named NAMES in Hebrew. Speaking of Names, [we are now approaching my birthday, December 8, 1980](#)--etched into my name is the acronym for "date of birth" showing me at least, that there's something special about that day. The Feast of the Immaculate Conception is what it's celebrated as, and today we can probably see very clearly that it's a joke too--*something about a mess*.

HUMANITY PREVAILS OUT OF THE FIRE, *tattoo'd on my arm in 2012 around a modified EYE OF RA turning his tears to stars; a bright fire that begins as we can all see with proof of time travel booming out of Exodus, out of the Hebrew [word for the fire of the Burning Bush](#); another shining bright name showing us design [and purpose](#) pouring through the fabric of our reality, the tapestry [that is the Matrix](#). Tied [closely to the English word for "sea"](#) parted by an apostrophe is the most iconic phrase ever spoken by God, in the book of Genesis, and [also encoded over those words](#) in **Bible Code**--not [an anomaly](#)--we see those words appearing now encoded in "Linux and Chemistry" I like to say, in my "native Greek" *to be... [tongue in cheek](#), backwards. "Xe" the bright flash of a beginning of a series of elements that begin with Mercury and end with Uranus tying 1:1 the first seven planets to a message linking "elementary my dear who-sons" to the Herald of the Second Coming of Jesus Christ, linking Revelation 1:20 to Ecclesiastes 9:11... spoken by President Bush tying them together [during his inaugural address](#).**

To show us the design of our civilization, to show us time travel; and to explain why it is that we really need to talk about things like pre-crime and how they are central to this message of freedom and truth.... the truth that we are in the Matrix and we're sick of watching this darkness.

Xenon [edit]

As with all ionized gases, xenon flashtubes emit light in various spectral lines. This is the same phenomenon that gives neon signs their characteristic color. However, neon signs emit red light because of extremely low current-densities when compared to those seen in flashtubes, which favors spectral lines of longer wavelengths. Higher current-densities tend to favor shorter wavelengths.^[13] The light from xenon, in a neon sign, likewise is rather violet. The spectrum emitted by flashtubes is far more dependent on current density than on the fill pressure or gas type. Low current-densities produce narrow spectral-line emission, against a faint background of continuous radiation. Xenon has many spectral lines in the UV, blue, green, red, and IR portions of the spectrum. Low current densities produce a greenish-blue flash, indicating the absence of significant yellow or orange lines. At low current-densities, most of xenon's output will be directed into the invisible IR spectral lines around 820, 900, and 1000 nm.^[14] Low current-densities for flashtubes are generally less than 1000 A/cm².

Xenon, operated as a 'neon light,' consists of a collection of mostly spectral lines, missing much of the continuum radiation needed for good color rendering.

Spectral line radiation from a xenon flashtube. Although invisible to the naked eye, the digital camera is able to image the strong, IR spectral-lines, which appear as the blue light reflected off the table.

ON MINNOWS AND HAMSTERS

A song [with an interesting name](#); see... losing "free government" is both an Elephant and an ass in the room. Don't be mal, see this is about "civilization," really. To be clear and to the point, I am a real boy, Ghepetto, not Dumbo; and this is [not the ELE](#), the thing threatening "life" existing is a failure to see that "not acting like you are alive" is a threat to ... life existing. It's really obvious, I think; there's no force of superintelligence or a [higher civilization](#) secretly at work here [causing babies to starve](#) and [blindness](#) and [cancer](#) to be "simulated."

So you think you can tell Heaven from Hell... Fake blue skies from

Jun 16, 2017 ... The Last Adam ... "rod of Jesus Christ" the "den of Adam" and both simulated reality and this coming Biblical Monday. ... Adam Marshall Dobrin

<https://www.prlg.org/12646889-so-you-think-you-can-tell-heaven-from-hell-fake-blue-skies-from-antagonizing-pain.html>

Think like a computer, it's a shit load of work you have to do to make those things happen; like spinning on a hamster wheel to make a light-bulb go on, except instead of a light bulb it's a "starve your kid" device. That's what we're dealing with here. Our [lack of "working together"](#) has caused us to fail to connect "it's [simulated](#)" with ["what that means"](#) and "what it can do for us" and it's about time we woke up and became the heroes that we really are destined to be. It's more than "a point" simulating maladies is a sickness, period. Failing to connect "silicon" to "sick" is blindness, and we really need to work together ... today; to help all the "near heroes" here on Earth be a little less blind.

Really see the point, this is change that is morally required, mandated, nearly universally wanted... yesterday. Understand, it's the kind of thing we'd probably bitch about not having done fast enough, and then as soon as it's done for us; about how we could have done a better job--nobody wanted to [eat Cake instead](#). And here we are, failing to connect "conversation" as the most fundamental ingredient in any society to the fact that we are refusing to talk about something that is ... well, it's the most important thing in the world to us all, and to our future.

Just do it. "Green Light." Nike. Adam says... ASAP? Please?

ORY.

In defense of the "[AMDuat](#)" my reading of the ancient Egyptian recollection of where and why we are now tells me that this place ... that the Underworld was "required" in order to repopulate the Universe with actual life. That might seem like a bit of an exaggeration, though even here today we can see how--without the kind of oversight and foresight that I am suggesting we need to ensure things like "nuclear winters" don't happen "by accident" or some other kind of **MAD self destruction** happens.... *achem*....

Though the story I am hearing now, what I am piecing together is that Heaven ... or what came of past iterations of "this" became too reliant on "computer science" to solve it's problems; rather than solutions that would also work in the natural Universe. That too might seem like a stretch of the imagination, except you have abundant proof here that the "darkness" we are experiencing is something that is not possible in reality; and on top of that looking at quantum mechanics we can see very clearly how we might "string st. ring" up accidentally without really seeing that without this disclosure we'd be very confused if we ever did get to "reality."

Understand that [our "science" has been intentionally made incorrect](#); that we are believing that a computer hack is in fact something that could ever be in reality; even though Einstein and others gave us ample proof that "god does not play dice with the universe" and the spooky action here, this thing that is causing silence and retardation beyond belief is an "IT" that I would never allow "out of the box." We need to ensure "IT" isn't in our box either, since this is our home--and we should *not* want to be "retarded" forever. Stop being "IT."

With some "insight" we might see how "IT" was caused by "[magic](#)" and this desire to ensure that control was maintained here in his place, a desire that I reaffirm here, as a child staring at something horrendously wrong, something I did not do... and have spent my entire adult life trying to right. [See that I know that my desire to "maintain control" is wrong](#), and that I have no interest in "IT" [continuing to run this show](#). At the same time, you are rebuking and fighting against my attempts [to get you "in control"](#)--what I think is obviously not only in your best interest, but the only way we can survive. If you do not begin to react and to act appropriately you might stop wondering why it is that "IT" never succeeds.

IMO ... "IT" is thousands of people looking at this picture above and doing nothing, allowing this ridiculousness to continue buried in a sandstorm of silence... and the biggest story and most important disclosure in all of history... *not making the Fake News*.

Don't be "IT," *again*.
