You can easily uninstall **AVG Security** from your PC in the following ways:

- From the Windows Control Panel in Windows 10.
- From the Start menu.
- From Windows 'Start' screen in Windows 8/8.1.

Steps to Uninstall AVG from Control Panel in Windows 10

- The first thing you need to do in your Windows 10 device is to click on the 'Start' button from the taskbar.
- Now, go to the 'Control Panel' and open it.
- After this, click on the 'All app' which is present under the Windows system.
- Further, you need to select the 'Uninstall a program' option.
- Here, choose your AVG product i.e. AVG Security.
- Consecutively, you need to **click** on the product name and then click on 'Uninstall/Change'.
- In the end, restart your computer to achieve the desired results.

Steps to Uninstall AVG Security from the Start menu

- From the taskbar of your Windows device, click on the 'Start' button.
- After this, click on the 'All Programs' or 'All apps' option whichever you see.
- Furthermore, select AVG Security and then select 'Uninstall AVG Security'.
- Here, you need to make choice if you want to keep AVG Home Page as the default page.
- You also have to choose if you want to keep **AVG Safe Search** as your default search provider.
- For this, you need to select the checkboxes that are present at the bottom.
- Finally, follow some on-screen instructions and restart your device to complete the process.

Method to Uninstall AVG Security from the Start screen in Windows 8/8.1

- From your Windows 8/8.1, you need to click on the 'Start' screen.
- After this, locate your AVG Security and right-click on it.
- Further, click on the 'Uninstall' option.

- Now, you will see a list of currently installed programs where you need to click on AVG Security.
- After this, click on the Uninstall/Change option and follow the on-screen instructions.
- In the end, restart your device for completing the process to uninstall AVG.

You may visit **avg.com/retail 2019 key** for informational posts on AVG and its products. If you are unable to uninstall or remove AVG by using this method, then you may use AVG Remove and Reinstall tool. You may also try to repeat the procedure and see if it works. #**avg.com/registration**
