

i-mop XL[®]

Changing the
way you think
about cleaning

i-team[®]

Change the way you think about cleaning... meet the i-mop

Full size scrubber dryer with
the flexibility of a flat mop

Over 70% of floors are still cleaned with a mop & bucket. It is time to think differently about cleaning. Mop & buckets are highly maneuverable however they have many issues:

- Extremely labor intensive
- Primarily spread dirt around instead of removing
- Pose slip & fall risks due to wet floors

The patented i-mop combines the maneuverability of the mop with the performance of a traditional scrubber. The i-mop:

- Greatly reduces labor costs, up to 10 times faster than a mop & bucket
- Dramatically reduces water & chemical consumption
- Delivers extremely clean floors with high mechanical agitation
- Leaves nearly instantaneous dry floors with water recovery

Dual, counter rotating brushes

Twin Brushes

Counter-rotation of twin brushes pushes solution toward center, rather than splashing off to the side of the machine.

Unique Brush Design

Channels that constantly push solution towards – not away from center. Plus, concentrically stepped bristles trap fluid and prevent splashing.

Squeegee System Design

Placement of squeegee under weight of equipment creates pressure against uneven floor surfaces for better fluid recapture.

Squeegee Location

Location of squeegee immediately behind brushes (vs. behind wheels) retrieves fluid before its fans out to sides.

Simple, intuitive controls

Obvious operation – easy to train

Easy swivel operation – even with one hand

No balancing act, pushing or straining— as easy to operate as a mop

Detachable tanks for cleaning solution & recovery water

Easy to replace or change clean solution on the fly, easy to empty recovery water in any sink, virtually no down time

Heavy-duty hinge for 360° steering

Highly maneuverable in small spaces around obstacles and under furniture

Rechargeable modular battery packs

Continuous run-time by swapping out and recharging with an extra set of batteries

Powerful 350 RPM motors

Up to twice the speed of many conventional disk scrubbers

Easy transport wheels

Easily transportable between different areas, levels and buildings

Full-size heavy-duty deck

High productivity – i-mop XL cleans & dries 1,000 sq ft of obstructed space in less than 5 minutes

Low profile & folding design

Fits under furniture and counters and gets into tight spaces. Deck folds for narrow storage.

it PAYS!

Why i-mop?

- ▶ because if used everyday, you reduce the need to deep clean
- ▶ because you do not need a van for transportation
- ▶ because it is the best machine for any cleaning emergency
- ▶ because it has the best rate of cleaning, measurable with ATP test
- ▶ because it can be used for 1 m² as well as for 1.000 m²
- ▶ because it can be moved from one floor to the other without an elevator
- ▶ because it can be used 24/7
- ▶ because it cleans the grouts between tiles like no other scrubber

You don't believe it?
Challenge us to prove it!

tanks

Extra quick-connect color-coded tanks for multiple cleaning solutions can be carried.

pads

A full range of pads to handle a wide variety of soil types, floor types and cleaning applications.

batteries & chargers

i-mop's lightweight lithium-ion batteries are part of the technology that makes i-mop small enough to get in tight spaces and still be easily transportable up and down stairs and in a car. Extra batteries allow the i-mop to run 24/7. Optional wall chargers are available. Get longer runtime (90 minutes) on the i-mop XL with gray batteries.

brushes & collars

A variety of brushes are available for your i-mop, including soft, medium, and hard bristles. Color-coded brush collars in HACCP colors are also available.

Technical specifications

Application	Indoor, hard surfaces only
Theoretical performance	Up to 1800 m ² per hour
Practical performance	1000 - 1300 m ² per hour
Brush speed	350 RPM
Brush pressure	22,5 kg
Operation width	46 cm
Size machine (l x w x h)	50 x 38 x 120 cm
Weight without batteries & water	18.5 kg
Clean water tank	4 L
Recovery clean tank	4-6 L (max. 8 L)
Material	PP, Aluminum alloy
Power source	2 i-power 9 batteries*
Battery	24V - 8.8 Ah
Run time	60 minutes
Charger type	Off-board*
Charger	110-240V, 50/60Hz

* Batteries and charger can be ordered separately.
