

## Overview of the Golden Star Casino Australia game offer

At Golden Star Casino you will find many classic slots and modern video slots. Many well-known software developers like NetEnt or Microgaming contribute titles to the portfolio. You will also find many of the online slots I tested, such as Starquest from Big Time Gaming, at this provider.

Unfortunately, I was unable to locate any Play'n GO Books of the Dead, but I did like playing the iSoftbet slot Book of Immortals at Golden Star Casino. In this Golden Star Casino review, I want to underline the broad collection of blackjack games. There isn't quite as much variety in online video poker games and roulette tables. More articles regarding the card game blackjack can be found here.

### Bonus points from Golden Star Casino test

In this section, [goldenstarcasino.bet](https://goldenstarcasino.bet) Golden Star Casino can earn additional points. The provider cannot call any special prizes or awards its own yet. However, it has a lot to offer when it comes to extras and actions. Besides the outstanding welcome bonus for new customers, regular players also have a lot to look forward to.

There are many additional offers such as reload bonuses, cashback promotions or live casino events with which variety is offered. Unfortunately, special games like scratch cards or keno and bingo are not to be found at the provider. For this, there are always free spins in the slot of the week, which you can secure.

Many online casinos offer a special VIP or loyalty program. Unfortunately, I could not find a loyalty program at Golden Star Casino. Although I am sure that particularly diligent players also get special rewards. However, there is no official program of this kind on the website.

### The website and software in the Golden Star Casino test

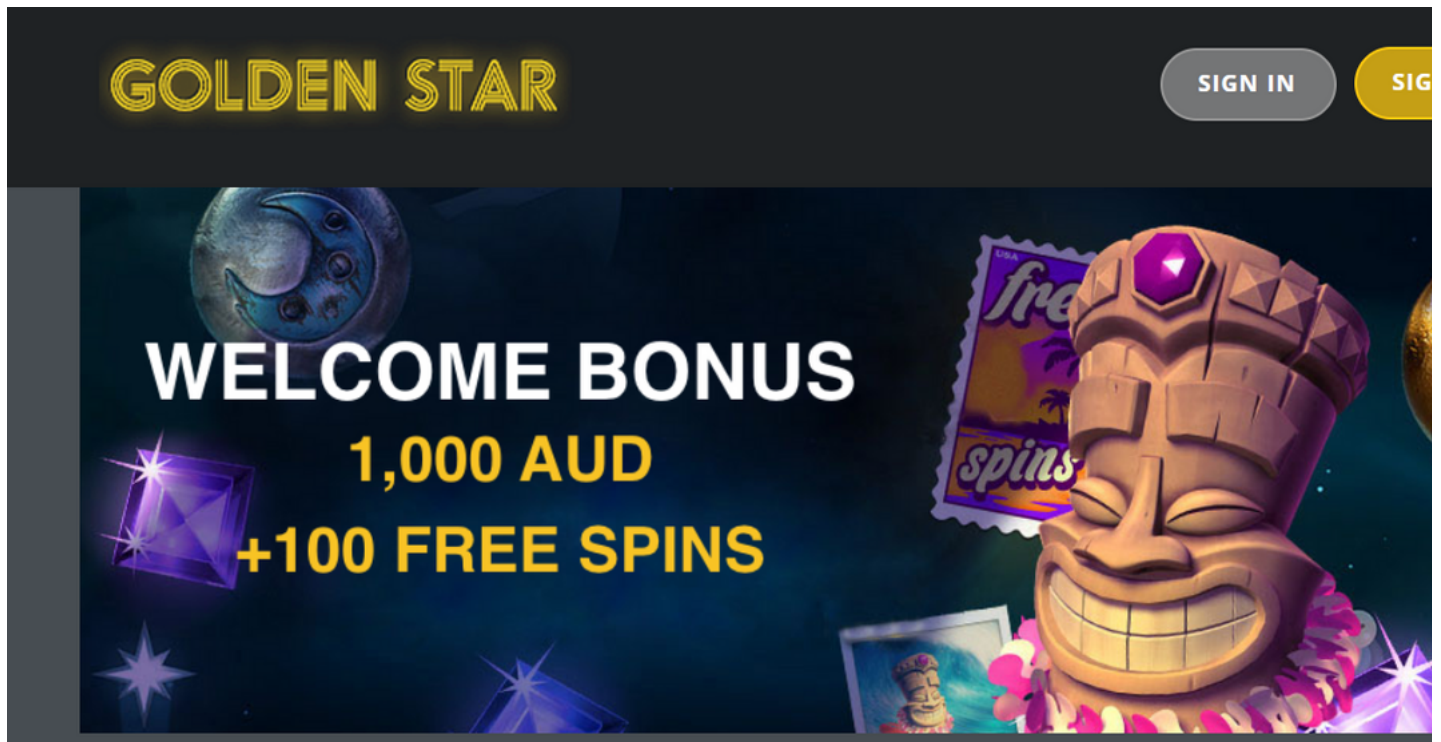

With a good online provider, you will hardly encounter any technical deficiencies. The internet casinos know exactly how annoying it is for players not to find a smooth gameplay. My Golden Star Casino experience with the website was also very positive. However, I did notice the slightly longer loading time for some titles.

The website itself is available in five different languages. In addition to English, you can also switch to Swedish, Finnish and Norwegian. All in all, a solid performance of the Golden Star Casino.

### Live Dealer Golden Star Casino Games

Will this online casino be able to shoot up to the best live casinos? This is the question I'm going to answer in this Golden Star Casino review. Live dealer games are now part of the good tone of an online casino, if you can believe the opinions of the players. In high definition, the actions of the friendly croupiers are transmitted live and in real time to your computer.

As my Golden Star Casino experiences have shown, the provider relies on the top provider in the field of live dealer games: Evolution Gaming. With the market leader, the popular game show games such as Dream Catcher, Deal or no Deal live and Football Studio also find their way into the live area. In addition, you will find Common Draw Blackjack Low Roller, a title from NetEnt Live.

### Conclusion: Golden Star Casino is not only suitable for night owls

My Golden Star Casino review turns out to be extremely positive. In addition to the outstanding welcome bonus for new players, customers who have been here for a while are also taken into consideration here. There are a variety of promotions and actions that can be very lucrative.

In addition to Australian customer service that is available to you, the good range of games is especially positive. Another advantage is the Golden Star Casino. Evolution Gaming offers you an excellent gaming experience with professional croupiers. With the valid gambling license of the Malta Gaming Authority, security and fairness are also ensured.
