Triple layered
for extra
protection

Comfort design
for minimal stress
on ears

One size will
fit most

Disposable
to minimize
contamination

Suitable for
use in public
spaces

Great for daily protection from allergens, and airborne pollutants helping you breathe easier while also protecting others from your coughs and sneezes. Ideal for use running errands or visiting public areas such as grocery stores, pharmacies, parks, post offices, and more - where social distancing measures are difficult to maintain.

These face masks are made of an outer layer of non woven fabric, a middle layer made of a filter fabric, and an inner layer made of a soft, skin gentle facial tissue. Fluid resistant, unlike cloth masks, to provide protection against large droplets or sprays of bodily fluids. Featuring comfortable elastic ear loops with non woven skin-friendly fibers are designed to eliminate pressure to the outer ear.

Available in packs of 50 for \$60
