About NoolQ

Why Choose NoolQ?

Our formula is specifically designed to enhance cognitive performance so you can achieve your best results.

Trusted by Customers

NoolQ is used by athletes, executives, and students who rely on maintaining optimal brain function.

Versions of NoolQ

v3.0-AZ

The advanced formula, [NoolQ v3.0-AZ](#), has contains Noopept (an advanced nootropic derived from Piracetam) and other top cognitive nutrients like Alpha-GPC, CDP Choline, L-theanine, Vitamin B12 and much more in easy-to-swallow size 00 capsules. [See the label.](#)

v3.0-RC

The latest release, [NoolQ v3.0-RC](#), the research chemical (RC) version of NoolQ, is not intended for in vivo (human) use. This product is voluntarily labeled as RC because it includes Aniracetam. It uses the same size 00 capsules as -AZ. [See the label.](#)

Ingredients (v3)

Alpha GPC

Alpha GPC, a nootropic supplement, boosts acetylcholine levels in the brain, potentially enhancing memory, focus, and cognitive performance.

CDP Choline & Choline Bitartrate

CDP Choline, also known as citicoline, is a nootropic compound thought to support cognitive function by increasing levels of choline and uridine in the brain. Choline B. has even more dietary choline by weight.

L-theanine

An amino acid found in tea leaves, is known for its calming and relaxing effects, often used to promote relaxation and focus without causing drowsiness or stimulation.

Noopept

Noopept, derived from the dipeptide structure of piracetam, is a nootropic compound with potential cognitive-enhancing effects on memory and learning.

Phosphatidylserine

The only supplement with FDA Qualified Health Claims related to brain health. Associated with preventing and mitigating cognitive decline, including Alzheimer's and dementias, in elderly populations.

Vitamin B12

Vitamin B12, an essential nutrient, plays a crucial role in energy production, nerve function, and red blood cell formation.

Aniracetam (v3.0-RC only)

Aniracetam, belonging to the racetam family, is a nootropic substance that could potentially improve cognitive function, focus, and mood.

Nootropics Literature

[Our Zotero Nootropics Collection](#)

Clinical studies (with positive and negative findings) discussing nootropics believed to a beneficial effect on memory, cognitive function, and overall brain health.

[Our Zotero Alzheimer's & Dementia Collection](#)

Alzheimer's & other dementias have significant, but not complete, overlap with nootropics.

Testimonials

Yaacov Norowitz

International Chess Master

"As a professional chess player I enjoy the enhanced focus for long tournament play."

eBay Buyer

Customer

"Very good and helpful substance. In two weeks I'm remembering things from when I was 5-6 years old... memories are great!"

Val Fiott, Ph.D.

Natural Health Expert

"Phosphatidylserine alone makes this a really valuable supplement."

Frequently Asked Questions

What are Nootropics?

Nootropics are natural supplements that improve cognitive function, memory retention and overall brain health.

Are there any side effects?

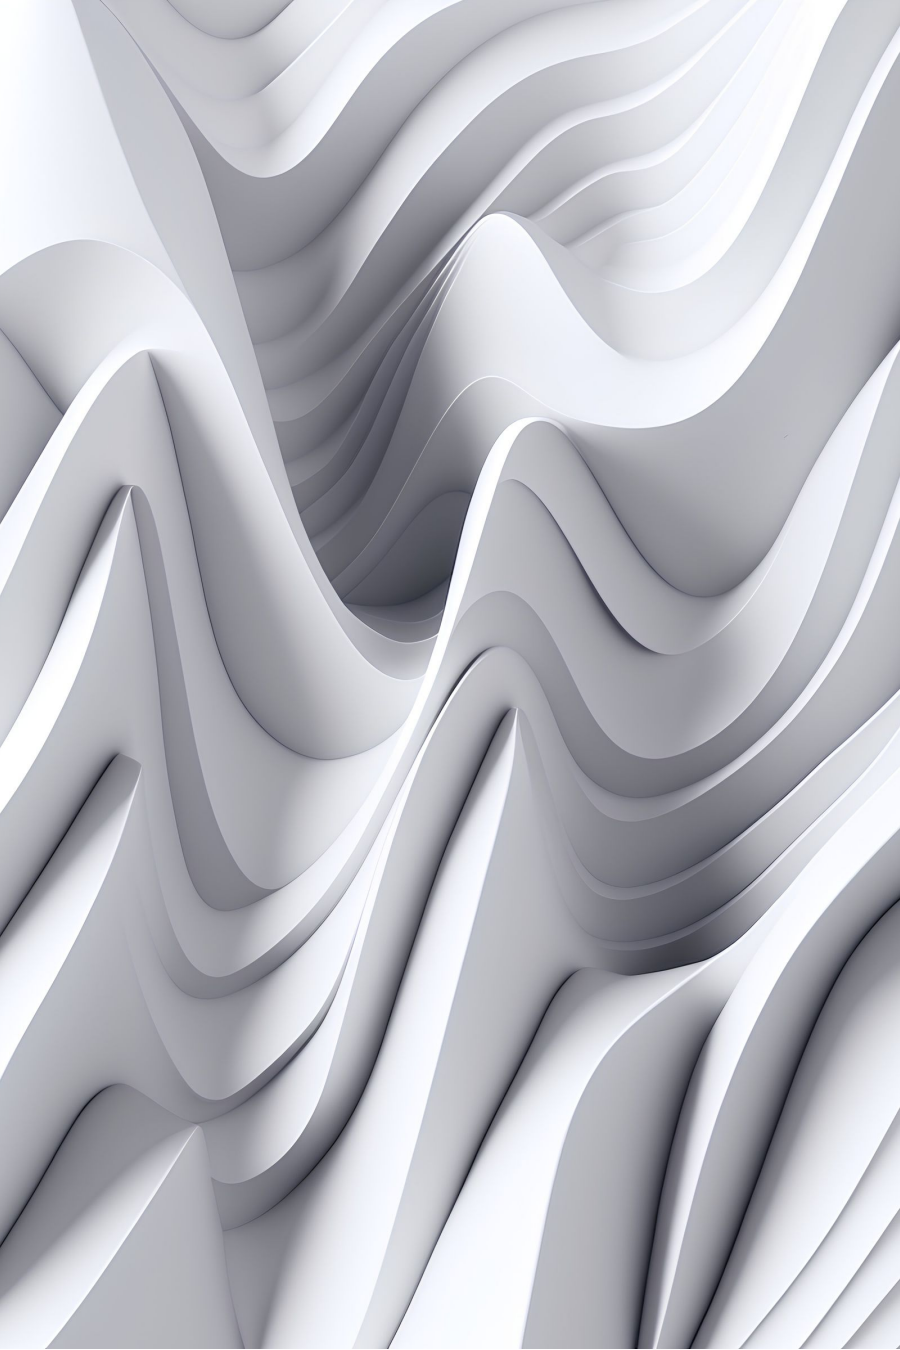

Although the ingredients of NoolQ are selected for being well-tolerated, all supplements have potential side effects. Discuss with a physician and use [this NIH resource](#) to learn more.

How long does it take to see results?

L-theanine and B12 have immediate effects after digestion. Other ingredients support your brain's health long term. Some studies have indicated short and mid-term effects of some ingredients such as noopept, but such research has not yet resulted in a FDA Qualified Health Claim.

How should I take NoolQ?

Taking NoolQ with food helps to minimize potential side effects, such as gastrointestinal discomfort.

Unlock Your Full Potential with NoolQ

Don't wait any longer to unlock your brain's potential. Order your supply of NoolQ today and start experiencing the benefits of enhanced cognitive function, improved focus, and increased productivity.
