

In memory of

I give my heartfelt thanks to the Finn Nørgaard association

Whats the mission Bring light to a darkness sweeping towns and nations

A young mind got consumed by madness pain and hate

That led to a tragedy, lives lost to a brutal fate

But off the disaster a choice was made

To do something to help

So, a new path could be laid

With so much darkness going around

its easy to lose sight of the light

Loosing hope in the dawning of a new day

Coz we can feel like we are walking through a never ending
night

But they

are putting in the resources So we can fight that good fight

The man said:

we got support those who be struggling

Coz if life hit you hard nuff enough a It can feel like you are juggling

Hand grenades or tap dancing on razor blades

A young human being in this state Chose

a dark path that lead to death

Poisoned by merchants of hate and a loss dreams,

he gave up on lifes sacred breath

The intent to do harm grew in a mind damaged

And a child grew to a young man

who became a savage

Finn lost his life protecting others

Face to face with the hate

he gave up his life in an act of courage

The hate haunted the town all through the day
And to a house of prayer on a fateful night
the same mind possessed with a dark and hateful spirit found its way
Like Finn
it was dan who stood face to face with madness
And hunger for death
And like finn he lost his life
But the sacrifice he gave saved the rest
Here we sit today in memory of
Coz in the worst of situations
These two people faced death inspired by love
And this association in Finns name was born
to give a helping hand
To minimize the risk of the hateful
twisting more minds in this land
So who are we– we are detstartermedmusikken
What we do – in our workshops We use music and words to help too
And for the help u giving us we got to say thank u
Much appreciation for your recognition
Coz word is bond we on the same mission
We are lucky enough to meet young minds
Dealing with life and things of all kinds
So we do our bit
So they can find their path and let their light shine
It starts with you, and it ends with all of us
The only thing that defeat darkness is love hope and trust
So we work to keep the hope and the dreams alive

Coz like a wise man told me

if u hold on to hope

u can pass through the darkness And not only survive

but thrive

And that's a blessing we are manifesting All the way live

In memory of

Only way we gonna get through the darkness

Is remembering the Love
