Slot Games

Without a doubt, the most preferred type of games by users are the online slots type games. Not only is the variety endless, but the prizes that each one can win are great to say the least.

The main developers of slot games for Wild Card City casino are EGT (Amusnet Interactive), Pragmatic Play, Amatic, Spribe, SG Digital and CT Gaming. Each of them has managed to earn a high position in online betting circles. The games provided by them are based on the so-called RNG (Random Number Generator). This means that all the winnings in the slot games are randomly assigned and not fixed and decided in advance.

In the Top Games section, you will find the favourite slot games of Wild Card City online casino players. Our top picks are 20 Super Hot, Sweet Bonanza, The Dog House Megaways, Big Bass Bonanza and 40 Burning Hot. The graphics on each of these games are excellent, and the potential rewards are sure to make you fall in love with Wild Card City casino games.

Wild Card City casino table games

Those of you who are keen on table gambling may be a little disappointed when you see the limited collection of this type of game at Wild Card City. The exact number of games is around 20. Still, there you will find blackjack and baccarat as well as a section dedicated to online poker Australia.

Judging by popular Wild Card City online casino reviews, some of the best choices for table games on the site are Virtual Roulette, Jacks or Better, Dragon Tiger and First Person Baccarat. We highly recommend you check out the respective Wild Card City casino collection and try your luck with at least one of the games.

Wild Card City live casino games

Another huge advantage of Wild Card City is that every single player can be transported to a virtual casino offering a variety of Live games. You'll be able to choose from a variety of blackjack, online baccarat, poker and roulette games.

Each game shows you the number of players that are currently active. Also, before making any bets, it is advisable to familiarize yourself with the English terminology associated with the respective game. The reason for this is that all games are in English with no translation options.
