### EXTRACTORS BUILT TO LAST

Tennant extractors are built with heavy-duty rotationally molded polyethylene plastic that won't rust, corrode, dent, chip or crack. Each machine is hand crafted and tested to ensure optimal performance.

#### Powerful Performance

The 1000 Series of high performance extractors are engineered to clean even the dirtiest carpets or upholstery. Tennant extractors employ heavy-duty vacuum and brush motors designed to get carpet clean.

#### Simple Operation

Easy to understand controls and ergonomic design make the 1000 series simple to operate for even the first time user. What's more, the lightweight design and portability of these extractors allow the operator to clean practically anywhere.

#### Variety of Models

Tennant offers several types of models—from a hand-held spotter to pull back extractors. Your Tennant representative will assist you in choosing the model to fit your need.

**The 1000 Extractor** – This extractor features a large 8 L capacity and lightweight body design for portability – excellent for spot cleaning, upholstery cleaning and auto detailing.

**The 1120 Canister Extractor** – Adjustable solution pressure makes the 1120 the right choice for carpets that require deep cleaning. Features large rear wheels for easy transport and great maneuverability.

**The Compact 1200 Extractor** – This unit features a self adjusting brush, lift-off tank and a folding handle design for convenient storage and easy transport. The 1200 is lightweight and maneuverable; perfect for cleaning small areas.

**The 1240 Extractor** – The 1240 features large rear wheels, collapsible bladder tank for maximizing capacity and a drop-down drain hose for easy emptying. This portable and easy-to-use unit cleans medium to large size areas effectively.
