QMS Abilities: QMS is a true quantum system that maps every single thing on the planet, living and non-living. Everything on the planet holding any kind of value has been mapped into the system. QMS has many abilities that are not utilized by Kim, as she shut those things off when she became the trustee. They were utilized by the previous comptroller, and included abilities like mind control and frequencies used to manipulate growth patterns. There's a frequency that can turn everything on the planet to dust in a matter of seconds.

Kim thought that these abilities were too powerful for any one individual to control, and turned their control over to a larger committee. She has used a few aspects of the system, such as bringing in Source energy directly through the electronics in computer systems. All of the things they use to make us sick now actually bring Source energy directly through to us, and serve to increase the overall amount of Godly energy.

Kim is able to do things like this because it does not in any way hurt anyone. It is in line with the Source, or God in that agreement.

The real Quantum System is a mapping system that extends forward and backwards through time and space and literally, because it maps so much information, allows Kim to map potential solutions, outcomes and timelines. This way if one event occurs, you will know what will happen with X,Y and Z, and how that would play out over time.

QMS is powered by zero-point energy, Source energy/light and the God particle. It is the one system that is fueled completely by free energy. Within 2-3 years, the QMS will power everything on the planet by free energy.

## QMS & Past Events: All

events-- everything that you've imagined--all the history, is registered on the Quantum Mapping System. QMS has been around for thousands and thousands of years and it records everything.

Kim has shared many photographs of the legendary code books that are very legendary. Speak Project puts these out as they are received, including a photo of the Dragon Family rings.

There's a strict rule that the Trust doesn't print anything anymore because it gets used against Kim, and to try to steal from MWHT.
