

Time to test your mental capacity

Who said that the complicated and enigmatic little [riddles](#) were just for the children to solve? These 8 complicated puzzles will make you scratch your head endlessly and try to discover them before you click on the answer. But maybe you're really smart and get them all right away. Are you ready to have an opportunity? If the answer is yes, let the fun begin!

A puzzle is a type of [riddle](#) that makes one think outside the box. Some riddles are easy, others are a bit more difficult and others can really make you think for a while. Often, when you finally hear the answer, you feel ignorant or foolish, because it should have been obvious to you. However, riddles are fun. Therefore, we keep testing ourselves and hope to improve them to solve them.

Our collection of riddles includes riddles for children and adults. Those for adults have some longer and more complicated riddles to challenge your mind. We close with a collection of riddles without answers, so you can prove your ability to solve them.
Enigmas for children

Children love riddles, as long as they do not get too frustrated trying to decipher them. Our collection of [riddles](#) for children takes that into consideration. Most of the answers are quite obvious if the children listen carefully and think for a moment. Adults will have fun sharing with their children, teachers with their students and children with their friends.

Technology companies are famous for asking impossible interview questions designed to knock down job candidates and demonstrate how they think about their feet. Google abandoned these types of questions several years ago and, subsequently, executives admitted that even they could not solve them, but several companies continue to use them as part of the interview process.

These types of questions can damage or harm an interview. "When the interviewer has a good knowledge of the hiring procedures and what to look for, they can be very insightful as to how a candidate thinks, but when they are added without any purpose, they will reject the good candidates. STEM-related fields but is not usually as appropriate for other industries. "

The [riddles](#) entangle the reader's mind and make him forget his worries, at least for a while. Many adults find that riddles work well as painkillers for stress. We have two lists of riddles for adults. One has longer puzzles that are more difficult. The other has normal riddles for adults. Try the selection to relax and have fun.
