

# Leading Online Gambling Establishment Payment Rates

Many all top online gambling establishments willingly subject themselves to regular audits (generally regular monthly) by a qualified and respectable 3rd party company, such as Pricewaterhouse Coopers (PwC). These audits normally focus on two aspects of the online gambling establishment's operations: their **random number generator** and their **payout rates**. The latter-- payment rates-- is the subject of this article.

An online gambling establishment's payout rates are displayed as a portion-- that being the portion of incoming wagers that are paid in winnings. As you can picture, the higher the payout rates, the much better. The leading online gambling establishments are often considered so, in part, specifically because they use the greatest payout rates.

A leading online casino with the highest payout rate in video poker might not have the finest payout rate for slots. Payment rates differ within top online gambling establishments for each specific game. Top Online Casino Payout at Table Games: Casino Kingdom (99.62%), Mummys Gold Casino (99.52%), Aztec Riches Casino (99.22%), 3 Diamond Casino (99.19%), 49er Casino (99.10%), Casino Domain (99.01%), Challenge Casino (98.98%), Crazy Vegas Casino (98.91%), Cherry Casino (98.69%), Captain Cooks (98.57%).

Top online gambling establishments that get their payment rates examined will almost always publish the outcomes of each audit on their site for anybody-- member or non-member-- to see. They'll even keep archives of all their past audits, also available to public watching.
