

Our Glass

Bent Slump/cast glass shower enclosure - Slump/cast glass is significantly less difficult to maintain and keep clean than typical glass. This is one particular of the causes why this glass is so well-known for showers. Thanks to our decades of knowledge and our in-home slumping and casting facility, we can manufacture a bath or shower enclosure that is custom made just for you and sure to stand the test of time. And if you happen to be after one thing added special, we have other options out there including ColorFuse technologies and sandblasting/etching. Combining style and function, our variety of steady bars supply further assistance for your AQATA item.
