- **Checking the address is important, if it is incorrect you will lose your money.**

## **Information**

### **What is USDT? (Stable coin – no risk of losing value)**

[Tether \(USDT\): Meaning and Uses for Tethering Crypto Explained \(investopedia.com\)](https://investopedia.com)

Tether (USDT) is a cryptocurrency stablecoin pegged to the U.S. dollar and backed "100% by Tether's reserves," according to its website. Tether is owned by iFinex, the Hong Kong-registered company that also owns the crypto exchange BitFinex. Tether was launched as RealCoin in July 2014

### **Why use ITP?**

Using manual methods to stock trade is risky as it takes time and you have a high chance to lose money, ITP uses Artificial intelligence to buy stocks and sell them within seconds. So, you do not lose any money. It is very secure.

### **Withdrawing money from ITP**

ITP hosts free withdrawal days where you do not get charged a fee for withdrawing money. (Best days to withdraw money)

### **How do I make more profit with ITP?**

Refer others to join the app using your referral code on ITP and invest 100 USDT. Certain number of referrals increases your VIP level and the amounts you can invest. It also increases your profit percentage.

### **How do I get my rewards for referrals on ITP?**

- Click on ITP App – Home and select task centre. Your rewards are allocated here. Including the milestones, you can hit for greater rewards.

**Do I get a profit from my team members/referrals?**

Yes, you do, and this does not affect their investment or profits at all.

- Click on ITP App and select Team, you can view total earnings of your referrals and the amount you have profited from them.

**How do I withdraw my money from ITP and how long does it take?**

You must not quantize on the day of withdrawal as your funds will be locked and unable to withdraw for a day. It can take up to 72 hrs to withdraw your funds into your Ku-Coin account.
