um elevado número de células adjacente é afetado.

1.1) **Neecrose de Coagulação** é um tipo de necrose em que a arquitetura dos tecidos mortos é preservada por alguns dias. Os tecidos afetados exibem uma textura firme. Neste tipo de lesão, ocorre não só a **desnaturação** de proteínas estruturais, como também de enzimas, havendo um bloqueio da proteólise das células mortas (células exibem com aspecto eosinófilo e são anucleadas). Posteriormente, as células necróticas são **fagocitadas** e sofrem digestão pela ação de enzimas lisosomais dos leucócitos infiltrantes. A isquemia causada por uma obstrução de um vaso (por ex. placa aterosclerótica), pode levar a uma necrose de coagulação do tecido. Este processo pode ocorrer em qualquer órgão, excepto no cérebro. Uma área localizada com necrose de coagulação denomina-se **enfarte**.

Exemplos: enfarte do miocárdio, vasculite, enfarte esplênico (baço)

1.2) **Neecrose de liquefactiva** caracteriza-se pela **digestão** das células mortas, resultando na transformação do tecido numa massa viscosa. É um tipo de necrose frequente nas **infecções bacterianas** (por ex. abscessos pulmonares) ou

Having an understanding that your perspective of experiences can impact your overall wellbeing is truly important; negative or positive it's your choice. As the saying goes "when one door closes , another one is opening." Or as #dababy says "If I ever slip, I'll fall into a Better Situation!" Replacing the negative thoughts with more positive believes and perspectives is what therapist teach clients. Having a negative mind set can make you miss your blessings. Replacing those negative thoughts can help you be in a better mood, be present and be free from your mental chains!! In #cbt treatment clients learn the techniques to work on their thoughts that impact their feelings and their behaviors... look for the next post that gives more information of this proven work that can help you and others to transform their life ! \*\*\*Mental health is not always simple as thinking positive some persons will need more in-depth -complex treatments.
