

# 'Minecraft: Story Mode The Game will get three Extra Episodes In 2022

The first four episodes of Minecraft: Story Mode came out in quick intervals, offering players a well-crafted story prior to Christmas. Telltale is the developer. abruptly stopped talking about when its adventure would end. Today we have a time -- and it's not exactly what we expected. Episode five will air on March 29th. Three more episodes are scheduled to follow later in the year. These are being described as "additional adventures" and will not be part of the season pass, which means you'll have to pay a little more if you want the complete story. Jerry

"We're not going into specifics regarding the content yet, but we can confirm that they'll be fantastic and may have a slightly different flavour to the previous season," Mojang's Owen Hill wrote in an article on the blog. If you're up to date with Minecraft: Story Mode, you'll understand why the team might be looking to develop more episodes -- the world is transformed in the final episode four, setting up the possibility of a new series of adventures for Jesse and the Order of the Stone.
