
WELCOME : Thanks for visiting my site, the *Best Guitar Lessons Online*, Just a little heads up about why this website has been created, since I was about 5 years old I remember watching my Dad play the guitar and sing songs with our family and friends at home it was so cool to watch him play. When I reached the age of 10 years I decided that I wanted to play the guitar as well, so one morning before my dad went to work I asked him if he could teach me how to play the guitar and he said yes, wow I was so happy, **THAT WAS ONE OF THE BEST DAYS OF MY LIFE**. 2 weeks later my Dad gave me a brand new Acoustic guitar and he started teaching me how to play, it was awesome playing guitar together as the years went by. But then to my amazement i saw people playing the Electric guitar on TV and their fingers were racing up and down on the neck of their Electric guitars it sounded so awesome, I wanted to do that and do it quick. So I decided to join up to guitar lessons, but their were so many out there, which one was I to choose?, I found out that a lot of professional guitarists starting off their career were using only the *best guitar lessons online*, I am now 20 years old and these 2 sites below have really helped me to become a professional guitarist, I am so pleased that I was told about these sites, they have helped me tremendously.
