Bob pioneers Simultaneous Localization and Mapping in Realtime.

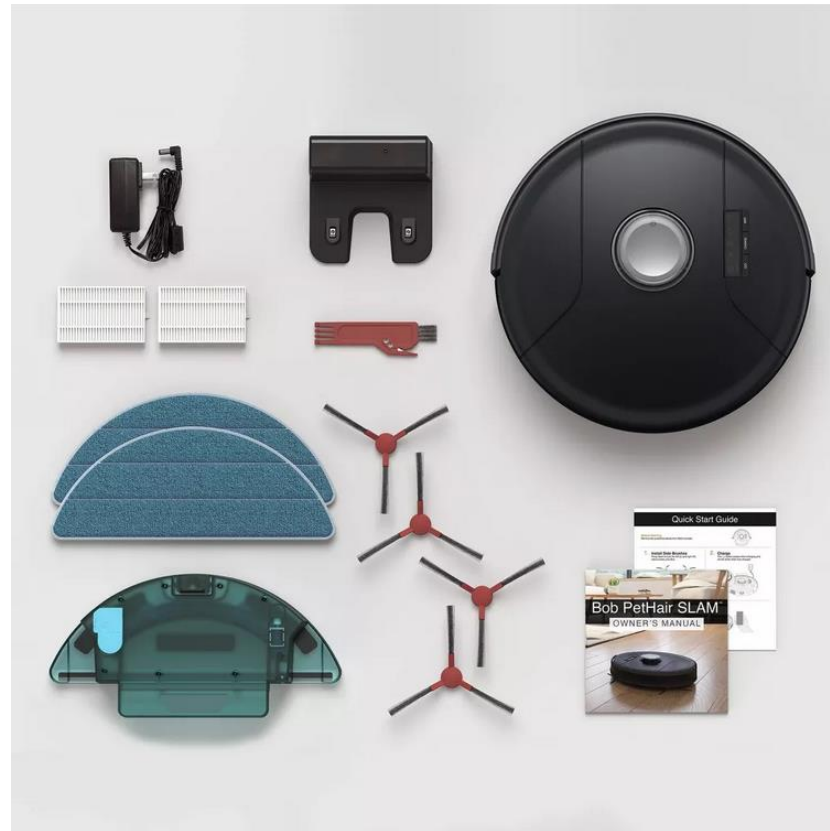

With laser vision and state-of-the-art mapping and localizing technology, Bob creates a map of his surroundings, and plans the best cleaning path providing full cleaning coverage of the entire house.

Connect Bob to Wi-Fi and use the bObsweep app to witness another one of Bob's unique tricks:

He identifies and colors different rooms at first glance.

Schedule a customized cleaning plan for your home. Finally, laser vision, and a plan: what a perfect...Robot!
