# Product description

»»» Access high-quality investments selected by the community

❶ An Oxyzon member has a Plan  
(Author)

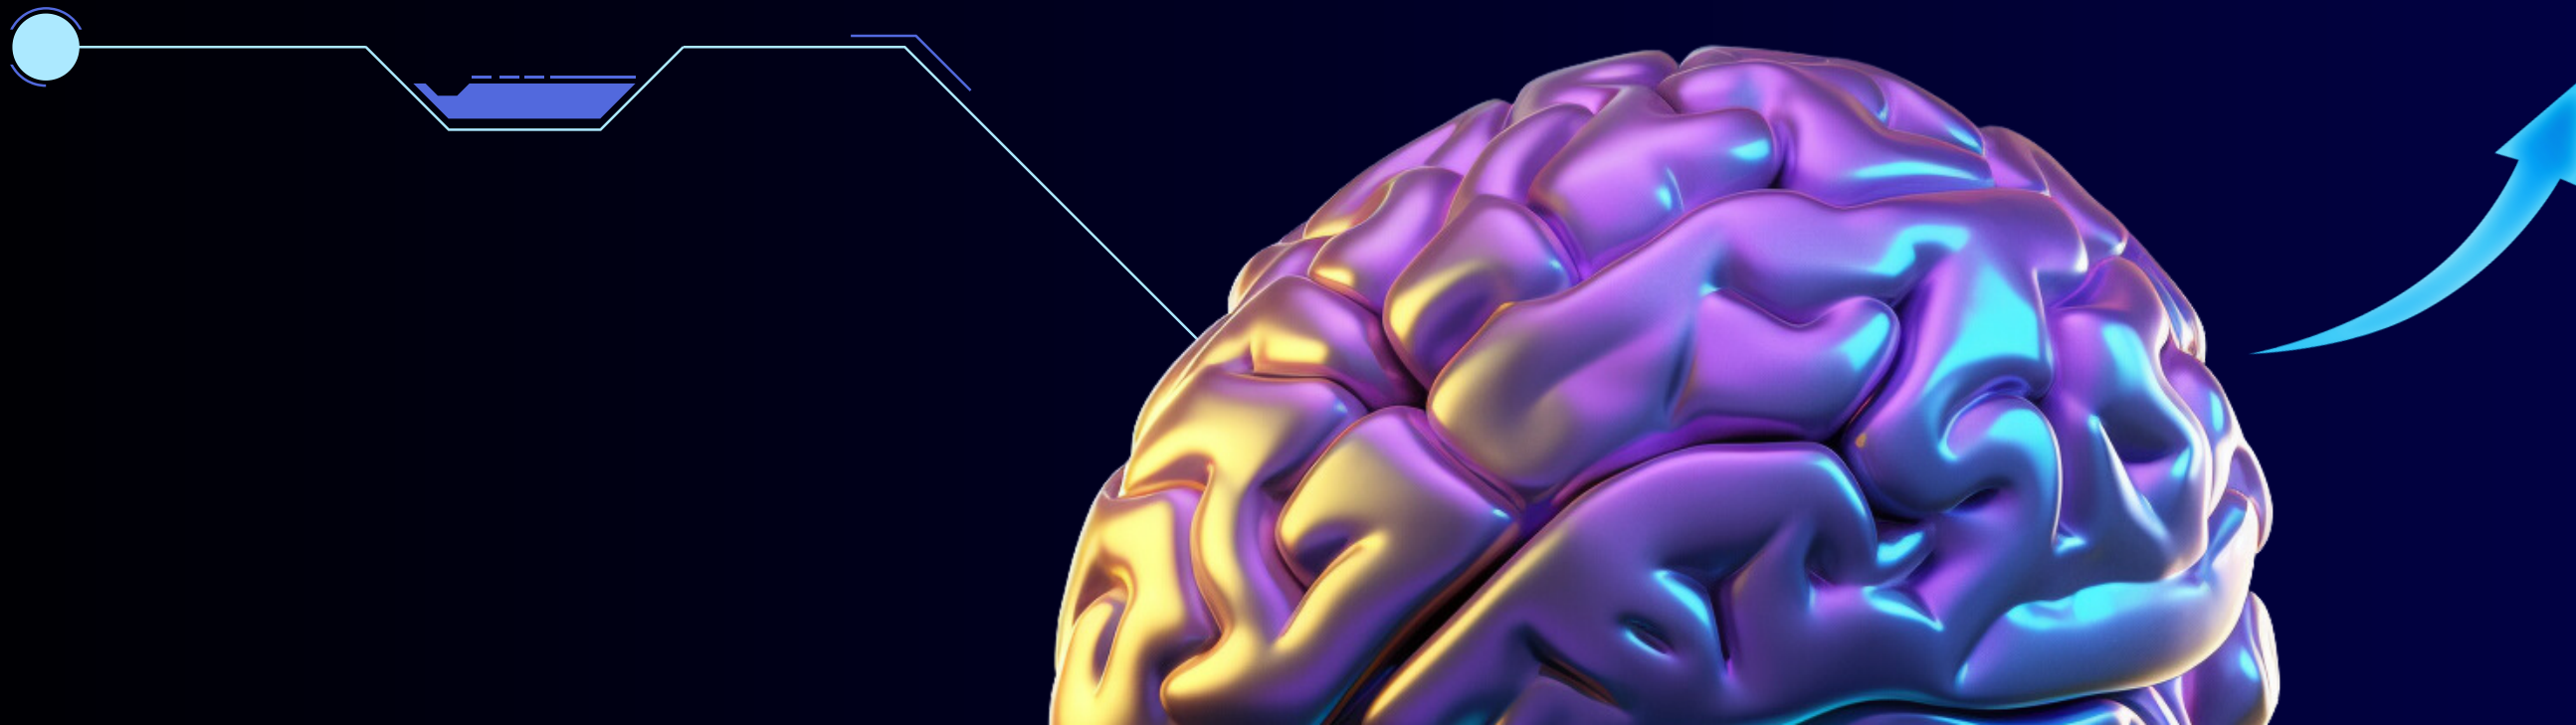

»»» "He wants to create a Plan and share it to the community to:

- Challenge and validate it.
- Potentially earn a bonus."

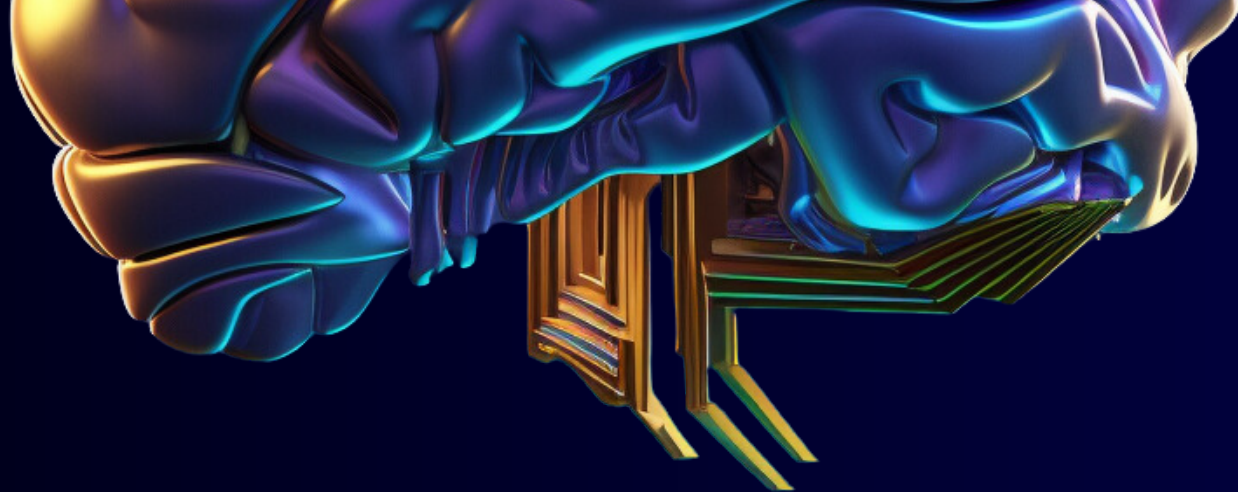

❷ The Oxyzon format : a guarantee of quality

»»» To be shared to the community, a Plan needs to follow the Oxyzon format, which includes :

- A reasoned fundamental analysis.
- An action plan that defines the entry and exit prices.
- Customized risk management based on the asset type.

**3 Oxyzon community challenge and validate or not the Plan (Early Investors)**

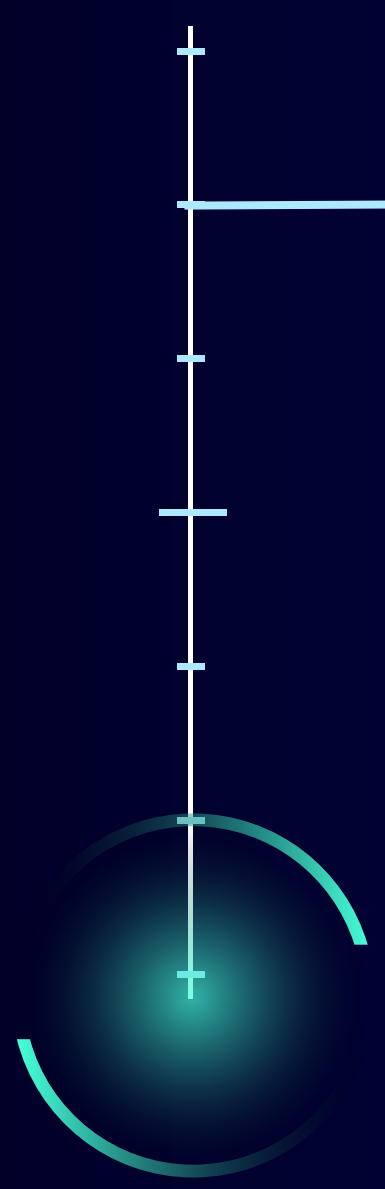

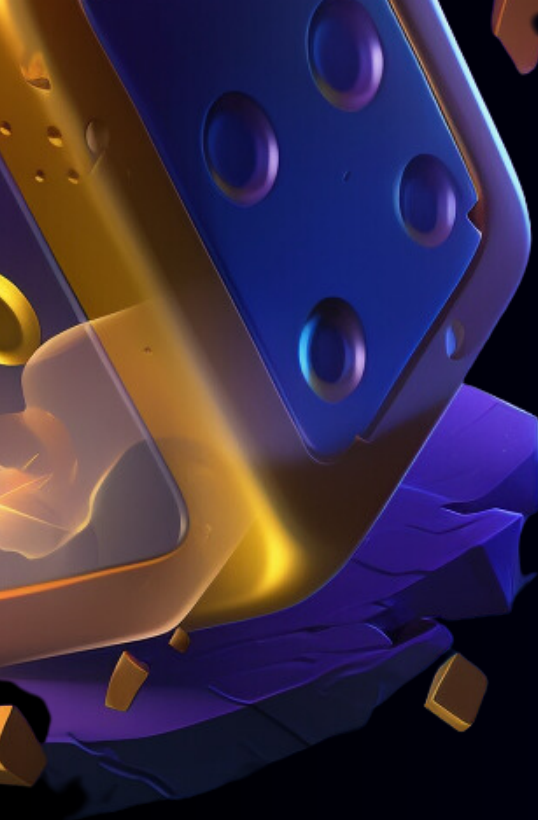

- »»» - *Oxyzon members will discuss the Plan.*
- *It can be modified if necessary.*
- *Each member will decide whether to invest or not."*

**4 Minimizing risks as much as possible to protect the investor (Council)**

- »»» - *A council, elected by the community, will perform a final check before approving the investment.*
- *They will also provide a purely advisory opinion on the investment.*

**5** Investment with a higher probability of success (Late Investors and passive investors)

- - Thoughtful investment with an action plan.
- Challenged by the community.
- Validated by the council.
- Late investors can then position themselves
- Automatic investors can be included in the investment
