If you are going into fish farming you should know that fish farming has two or it consists of two major subdivisions, which could either be operated separately or as an integrated process. The two subdivisions are listed below there are

- The Nursery operation
- The grow-out pond operation

The nursery operation comes first before the grow-out pond operation. The nursery operation is the first step you take when developing your fish that's why the nursery operation is very important because without the nursery operation you cannot operate the grow-out operation because the nursery operation is the basis for the grow-out operation

Let's talk more about The Nursery Operation, this is the process where by the inducement of the female fish to lay eggs, which are then fertilized, incubated and hatched fish are known as fries. These fries are then nurtured from between three and four weeks into fingerlings which is the size suitable for use in the fish grow-out operation. If you don't really know much about fish farming then that is why it is very important you get a business plan that would help you build your business well.

primary operation which is known as The nursery and grow-out operation, it involves the nurturing of the three or four weeks within which they could grow into fingerlings, mini juveniles and juveniles respectively. Just give it up to four to five months so that they can be nurtured into grow-out or table size fish suitable for sale and consumption.

We have professional business plan writers and because of that we have decided to come up with a professional fish business plan to help you build your business, are you already a catfish farmer that are interested or are looking for Bank loan, grant or other business plan competitions

For you to be able to write a business plan not just any kind but a professional business plan, the process is very technical and demanding and it requires a lot of research, that why we came up with our business plan because we have done the all the hard work so you don't need to go through the stress and spent a lot of money and energy.
