MAJI LOVE ST☆RISH TOURS

UNOFFICIAL CALL BOOK

INTRODUCTION

This call book pairs with the movie “Utano☆Princesama ♪ Maji Love ST☆RISH Tours”, which has its North American theatrical debut on January 22nd, 2023!

The concert-style movie was first released in Japan on September 2nd, 2022. Join the 7 members of the idol group ST☆RISH as they perform songs and dances inspired by music around the world in this travel-themed film!

Since this "movie" is a concert with audience participation officially encouraged, we recommend attendees bring penlights or glow sticks to the theater! Penlights are battery-operated glow sticks that can be purchased at anime conventions or online (Amazon, Lumica USA, etc.)

WHAT IS UTANO☆PRINCESAMA?

Utano☆Princesama – abbreviated by fans as “Utapri” – is an anime idol franchise that began as a game for the PlayStation Portable in 2010. As one of Japan’s most popular idol series, it has grown to include 10+ video games, four TV anime seasons, two movies, stage plays, manga, and several live concerts.

I’VE NEVER PLAYED THE GAMES OR WATCHED THE ANIME! CAN I STILL ENJOY THE MOVIE?

Absolutely! This movie a concert, so no prior knowledge of the story is needed! If this is your first experience with the series, just sit back and enjoy the music!

ABOUT THIS CALL BOOK

A call book is a lyrics booklet paired with songs to teach the reader “calls” or “fanchants” that go along with each song.

The lyrics printed in this book and all call-related annotations are exactly as shown in the official Utano☆Princesama ♪ Maji Love ST☆RISH Tours pamphlets that were sold at movie theaters in Japan. The contents are reprinted here in romaji so the same experience can be accessible to fans outside of Japan!

The previous North American theatrical release of the first Utapri movie also had the official “calls” featured in the subtitles to help the audience cheer along, so it’s possible that the audience participation lines will be conveniently on-screen during the movie!

WHERE CAN I LISTEN TO THESE SONGS TO PRACTICE?

Physical copies of the movie's songs can be imported as CDs from online stores like Animate International or CDJapan. You can also purchase digital copies of the songs on mora.jp, the iTunes store, or stream the songs on music streaming services like Spotify (Japanese region settings only.) YouTube is another great resource for hearing the songs to practice with!

HOW TO USE THIS GUIDE:

Pink text indicates parts audible in the original songs where the audience should sing along with the song on top of the song audio.

[♥ **Pink text in brackets with a heart next to it**] indicates lines that were not originally part of the recorded songs where the audience is instructed to shout.

[**Blue text in brackets**] indicates parts of the song where the audience should clap along with the beat.

PARTICIPATING IN THE “SURPRISE”

The following audience participation instructions were posted on the official Japanese website and social media accounts for the movie prior to the original release in theaters. These instructions help everyone overseas to enjoy the “surprise” too!

During the movie, there will be a scene where you will hear bells chime. At this time, please turn OFF or HIDE your penlights and glow sticks. A monitor that says “Ready...?” will then appear. When the monitor changes to “Go!!”, please turn your penlights ON and set them to only the WHITE color.

The rest is the surprise! You’ll know why when you see it—enjoy!

WHEN THE MONITOR SAYS "GO!!".... SET YOUR PENLIGHT TO WHITE!

DISCLAIMER

This book contains SPOILERS for the main setlist (song order) of the movie, so do not read ahead if you want the setlist to be a surprise!

Encore songs, however, are not included in this book.
