Practice Test 5

Scoring Your Multiple-Choice Practice Test

To score your multiple-choice practice test, follow these eight steps:

STEP 1. Write a “1” in the blank for each English Test question that you answered correctly. An example is provided in the box below:

	Key	Subscore Area*		Your answer was
		UM	RH	
1.	A	_____	_____	Incorrect
2.	J	_____	1	Correct
3.	B	_____	1	Correct
4.	G	_____	_____	Incorrect

STEP 2. Add up the numbers in each subscore area and enter them in the appropriate blanks in the shaded box below:

Number Correct (Raw Score) for:	
Usage/Mechanics (UM) Subscore Area (40 questions)	_____
Rhetorical Skills (RH) Subscore Area (35 questions)	_____
Total Number Correct for English Test (UM + RH; 75 questions)	_____

STEP 3. Compute your total number correct for the English Test by adding the numbers you entered in Step 2. Write this total in the appropriate blank in the shaded box above. This is your raw score.

STEP 4. Repeat Steps 1 through 3 for the ACT Mathematics, Reading, and Science Tests using the scoring keys on the following pages. Note that the Science Test doesn't have subscores, so determine your raw score for that test simply by adding up the number of "1s" you entered.

Total Number Correct for Science Test (40 questions) _____

STEP 5. On each of the four tests, the total number of correct responses yields a raw score. Use the conversion table on the following page to convert your raw scores to scale scores. For each of the four tests, locate and circle your raw score or the range of raw scores that includes it in the conversion table. Then, read across to either outside column of the table and circle the scale score that corresponds to that raw score. As you determine your scale scores, enter them in the blanks provided on page 926. The highest possible scale score for each test is 36. The lowest possible scale score for any of the four tests is 1.

STEP 6. Compute your Composite score by averaging the four scale scores. To do this, add your four scale scores and divide the sum by 4. If the resulting number ends in a fraction, round it off to the nearest whole number. (Round down any fraction less than one-half; round up any fraction that is one-half or more.) Enter this number in the appropriate blank on page 926. This is your Composite score. The highest possible Composite score is 36. The lowest possible Composite score is 1.

Interpreting Your ACT Test Scores

STEP 7. Now convert your seven raw subscores to scale subscores using the table below. For each of the seven subscore areas, locate and circle either the raw score or the range of raw scores that includes it in the table. Then read across to either outside column of the table and circle the scale subscore that corresponds to that raw subscore. As you determine your scale subscores, enter them in the blanks on page 926. The highest possible scale subscore is 18. The lowest possible scale subscore is 1.

STEP 8. Use the table on page 881 to determine your estimated percentile ranks (percent at or below) for each of your scale scores. In the far left column of the table, circle your scale score for the English Test (from page 924). Then read across to the percentile rank column for that test; circle or put a check mark beside the corresponding percentile rank. Use the same procedure for the other three tests (from page 924) and for the subscore areas (from page 925). You may find it easier to use the right-hand column of scale scores for your Science Test and Composite scores. As you mark your percentile ranks, enter them in the blanks provided below. You may also find it helpful to compare your performance with the national mean (average) score for each of the four tests, the subscore areas, and the Composite as shown at the bottom of the table.

Scoring Your Practice Writing Test Essay

To score your practice Writing Test essay, follow these seven steps:

STEP 1. Use the guidelines on the Six-Point Holistic Scoring Rubric (page 141) to score your essay. Because many papers do not fit the exact description at each score point, the rubric says: “Papers at each level exhibit *all* or *most* of the characteristics in the descriptors.” To score your paper, read it and try to determine which paragraph in the rubric best describes *most* of the characteristics of your essay.

STEP 2. Because your Writing Test subscore is the sum of two readers’ ratings of your essay, you should multiply your own 1–6 rating from Step 1 above by 2. Or, have both you and someone else read and score your practice essay and add those ratings together. In either case, record the total in the blank in Step 4 below and also in the blank labeled “Your Subscore” on page 929.

STEP 3. Locate your scale score for the English Test on page 926 and enter it here: _____.

STEP 4. Enter your Writing Test subscore from Step 2 here: _____.

STEP 5. Use the table on page 928 to find your Combined English/Writing scale score.

- First, circle your ACT English Test score in the left column.
- Second, circle your ACT Writing Test subscore at the top of the table.
- Finally, follow the English Test Score row across and the Writing Test Subscore row down until the two meet. Circle the Combined score where the two columns meet. (For example, if an English Test score were 19 and a Writing Test subscore were 6, the Combined English/Writing scale score would be 18.)

STEP 6. Using the number you circled on page 928, write your Combined English/Writing scale score on page 929. (The highest possible Combined English/Writing scale score is 36 and the lowest possible scale score is 1.)

STEP 7. Use the table on page 885 to determine your estimated percentile rank (percent at or below) for your Writing Test subscore and your Combined English/Writing scale score. In the far left column of the table on page 885, circle your Combined English/Writing scale score. Then read across to the percentile rank column headed “Combined English/Writing”; circle or put a check mark beside the corresponding percentile rank. Use the same procedure for your Writing Test subscore, this time using the column headed “Writing.” As you mark your percentile ranks, enter them in the blanks provided in the table below. You may also find it helpful to compare your performance with the national mean (average) score for the Combined English/Writing scale score and the Writing Test subscore as shown at the bottom of the table on page 885.
