

GENERAL PURPOSE CARBIDE BANDSAW BLADES

- More universal/versatile (general purpose) due to stronger tooth design
- Can cut all materials and shapes due to new tooth and gullet shape
- Needs no break-in has the same Patented edge preparation (honed) as on our TSS product
- New set pattern gives bigger span in cutting width

TO CALCULATE YOUR COST ON BANDS NOT SHOWN

1. Band length x Price per foot = Material cost
2. Material cost + weld charge = Band cost

Bands slightly over a foot in length are figured at the next half foot increment.
Bands slightly over half foot in length are figured at next full foot increment.

Example: 5'4-1/2" band figures as a 5'6" band - 7'9-1/2" band figures as a 8'0" band
