 [Github](#)

A passionate, self-taught Front-end Web Developer. I started learning when I was **16 years old**. I find joy in writing reusable, performant code. I always look for ways to expand my skillset.

### Skills

React | Typescript | Git | Redux | CSS

Node.js | MongoDB | Tailwind CSS

### Projects

#### React Commerce

A commerce website built using React & Redux

[Github](#) 

Users have the ability to:

- Add products to the **cart**.
- Proceed to **checkout** and pay.
- **User authentication**.
- **Filter** products.
- Basic **Storage Management**.

#### Did I meet a hacker

A website to allow gamers to see and report cheaters they meet in video games

- **User authentication** (Log in with Google).
- Input **Validation**.
- **Like & Dislike** functionality.
- **Search** by filtering.
- **Authenticated Routing** - Some functionalities are limited to authenticated users only.
- **REST API**

### Professional Experience

03/2021 – 07/2021

#### React Web Developer

*Freelance*

- Collaborated with a back-end team to allow users to **upload multiple images**.
- **Identified** and **fixed** visual bugs.
- **Debugged** and **resolved critical** and minor **bugs**.

### Awards

09/2018

#### Saudi Codes Ambassador

*Misk Initiatives Center & Ministry of communications*

My job was to **help students overcome the obstacles** and **make the journey easier** and more joyful for them. There were more than **307,000 students from 113 cities and towns**.
