

# Minecraft Village Seeds For Java Edition (PC/Mac)

In Minecraft, a village is a structure that spawns naturally in the game. It is made up of a small group of buildings that are inhabited by villagers. You will find villages in all biomes. Each village is made from different materials, depending on the biome.

Desert Village

Savanna Village

Taiga Village

Here are some Village Seeds for Minecraft Java Edition (PC/Mac).

Village Seeds for Minecraft Java Edition 1.19

Village Seed #1

This Minecraft seed spawns you in a Mangrove Swamp biome on top of some Mangrove trees. You will need to wear boots while you walk through the mud looking out for Warm Frogs.

You can find a Savanna biome with a small village at coordinates (-119.70.242). Minecraft servers The village is home to an iron golem as well as cows and a few wandering cats.
