

MX Medical ePay is an online patient bill pay module that allows patients to easily pay their bill online. Patients can submit payments via e-check or credit/debit cards and view transactions and balances. Set up for the ePay module is quick and easy and all reporting is available in both MX™ Medical and MX™ Merchant.

EASILY OFFER YOUR PATIENTS AN ONLINE BILL PAYMENT OPTION:

Savings & Promotion

With MX Medical ePay you can save roughly \$10 per payment received online vs payments sent via the mail. We also give you access to materials that help you to promote and push more online patient payments.

Faster Payment

MX Medical ePay allows your patients to submit payments faster via online e-check or credit/debit cards. The ePay module allows patients to view transactions and balances, add new balances to their existing payment plans and add or update the payment account information on file with their Provider.

Simplify Internal Billing

MX Medical ePay not only helps you process more payments online, but it also saves you manpower expenses and eliminates the hassle of patients submitting payments via the mail.

Easy to Explain, Easy to Demo, Easy to Deploy.

MX Medical ePay is easy to explain, demo and deploy. It can lift patient pay collections by up to 5% while reducing internal expenses. Deployment happens in hours not days and all you do is submit the MX Medical order form. We take care of the rest.
