

# Paramotor tour in Israel

See the Holy Land from above

Paramotor tour in Israel crafted and designed by pilots, for pilots! Our team gives the best of both worlds, tours and flying. A perfect mix – experience Israel from the air, seeing it from a unique angle that only few had the chance to see it from. Then dive into the places and history, see and touch Israel from within. A one of a kind tour, specifically put together for paramotor pilots demanding the most flying and sight seeing during their time in Israel. Not to be missed!

In 7Winds club we will provide you with the necessary gear for paramotor flight. Full support of ground crew through all flights

See a side of Israel you would never see otherwise with so many unique places to discover you will be amazed by Israel's rich as well as diverse cultural heritage and history.

**If you would like to find out more, or would like to reserve a tour - please email us with a number we can reach you at and we can call you, or use the contact form on our website.**

## **Tour plan**

### **Day 1**

Arrival in the Holy Land! Your guide(s) will meet you at Ben Gurion Airport and we'll begin traveling along the beautiful coastal road to the north of Israel. After arrival in the hotel you will be introduced with your gear and necessary rules for flying in Israel. Afternoon will be dedicated for exploring the new wonderful place you arrived at and getting ready for tomorrow's flights.

### **Day 2**

After breakfast at the hotel and briefing for the day we will take off on a flight in the breath-taking views of northern Israel. The cost-line of the Mediterranean, Mt. Hermon - the highest peak in Israel and ancient cities and fortresses are only a fraction of the views your will see. In days of good visibility it is possible to see all the way to the surrounding countries of Israel and see the 3 seas – the Mediterranean, The red sea and the sea of Galilee.  
Back to the hotel by the afternoon.

### **Day 3**

Today we will fly in Nazareth and lower Galilee area above a famous biblical place where Jesus is said to have once been while taking in the amazing views of the north of Israel. We will see the lower Galilee ridges bow down on their way south. The Syrian-African fault – an astonishing geological phenomenon, is within reach just short time after takeoff. At the bottom of the fault, some 200 meters below sea level, lies the sea of Galilee, where it is said Jesus walked on the water. Further to the east we will see the volcanic Golan Heights towering more than 500 meters above the sea of Galilee and stretches as far as the eye can see.  
Arriving back in the hotel in the afternoon for spa and dinner.

### **Day 4**

We will spend the day in Jerusalem, capital city of Israel and one with an extremely rich history. We will go the ancient and the new parts of this fascinating city and experience the way old meets new, tradition meets progress and coexistence is not a slogan, but a way of life.  
By the end of the day we will leave Jerusalem and drive to the south of Israel.

### **Day 5**

How low can you go? Today we will be flying by the Dead Sea area, the lowest place on earth. Some 400 meters below sea level, the air is thicker and experienced pilots say they can feel it in their gear behavior. Flying in the desert allows us to caress the untouched curves of the earth. As soon as we will gather altitude we will see the virgin soil of earth, carved by time and nature alone.

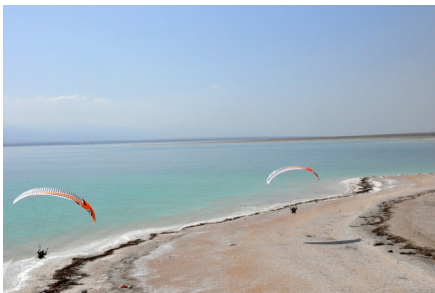

## Day 6

There is so much to see on the south of Israel that one day is not enough. Today we will fly the Machtesh Ramon. A Machtesh is a geological formation found only in Israel. Flying in a Machtesh, we will travel through time and see into the history of the ground we live on. Inside the Machtesh we will find colored sand and hypnotizing rock formations.

After taking in the beautiful views of the desert we will head north to Tel Aviv area.

## Day 7

Tel Aviv - the city that never sleeps, the big orange, the most hyped city in Israel, will be our destination today. This coastal city is where the independence of Israel was declared in 1948. Today it is the largest metropolitan area in Israel. During the day Tel Aviv is the 3<sup>rd</sup> largest economy of any city in the middle east, the financial center and technological hub of Israel. After sunset Tel Aviv changes its face and turns into the party capital of Israel. We will spend the day walking through the streets and talking to the people of this truly remarkable city. There will also be time for shopping. By the end of the day you will be dropped off by Ben Gurion airport just in time to catch your flight back home, taking with you wonderful memories, great experiences and new friends.

## Additional Information

Paramotor tour in Israel crafted and designed by pilots, for pilots! Our team gives the best of both worlds, tours and flying. A perfect mix – experience Israel from the air, seeing it from a unique angle that only few had the chance to see it from. Then dive into the places and history, see and touch Israel from within.
