

Display Packaging

Display packaging joins the attributes and qualities of promotional bundling to increase the convenience and visibility of the item in the retail market.

Targeted Promotional

It offers an efficient method for displaying a specific item. It is mostly utilized for the targeted promotional campaign as well as for introducing a new project.

2. Muse® Creatable End Cap

It has developed trays that could manage the different item categories like the veggies, eatable base and sauce. Creative shade coding has been done on the bundling. There is a dimensional headset concept with sweeping curves and big lug-on to grab the attention of the shopper. Bold shades have been used to deliver an organic and natural feel.

3. Garmin Fenix® 3 Hr

This is a protected acrylic box that has been inspired by a jewelry shop displays. The watch and its accessories are packaged in it. The exceptional product trays and cards are placed in it. There is a styrene accent rounded up to the premium consumer experience.

4. Dash And Dot Toys 'R' Us Merchandiser

It is a capturing packaging that is used to wrap up the toys. A bright blue and orange brand shade have been used on the package to command the consumer attention. There is a lit riser featured on the mounted toy to engage consumers to stop and check out the Dash. On display, an HD media player has been made so that the consumers could know about the details of toys.

5. Hot Wheels

On the bundling, there is a preassembled litho design. There is a top innovative dump bin that uses the orange Hot Wheels track. There is a simple to assemble litho placed on the header parts. Along with the activation kit, a beginner collection of real track components was incorporated.

6. Pepsi Emoji

It is a retail display rack that has been made to feature emoji-clad Pepsi bottles. This display was made for the drug, mass, C and grocery store channels. It has been specially planned and designed for product showcasing.

7. Logitech

There is a demo unit for the center of the display to grab the attention of the shoppers towards the product. There is a completely assembled and wrapped pallet for a simple function.

8. Tidy Cat

This bundling has a universal design that was utilized in the five retail configurations incorporating half and full pallets. The corrugated pieces were litho mounted as well as directly printed. There is a lift test demonstration module that utilized the real item bundling.

9. 3m: File Under S

There is a file cabinet theme to grab the attention of the shoppers and improve the placement. There is a layered waterfall drawer to increase the item load. It is also utilized to keep the item highly displayable and obtainable. There is a pillow center door with the drawer glides in it.

10. Gatorade

It has a simple one-piece column design. It contains a picture of Usain Bolt who is an Olympic Gold medalist. There are white shelves that are used to highlight the item shades.

11. Generac

A simple yet innovative display design has been made on it to create a good impressionable structure as well as aisle stopping impact. It is quite reasonable in price and features digital printing.

12. Sc Johnson

It incorporates an engaging voice module with the real and functional item featured on the display header. The wing and header graphics panels were pre-attached to the ground display.
