## High Tunnel Greenhouse | High Tunnel Kit | ShelterLogic

High tunnels are also an integral part of local food production systems in many parts of the United States. They aid fruit and vegetable crop production by extending the cropping season, providing protection from the elements (wind, storms, heat, etc. ), and result in a more-stable production system that poses less risk of crop failure. .

### High Tunnels - Poly-Tex, Inc.

Select a size that meets your requirements and fits your needs.

## **High tunnels a growing option - Greenhouse Canada**

Print. A polytunnel is a tunnel-like structure that first appeared in the 1960s. It is framed with steel and is generally made of crop bars, base rails, and a plastic polythene cover. Although primarily used by gardeners and commercial growers for growing vegetables, fruits, and flowers, they can also be used to house livestock, or for storage.
