

# Where To Find Minecraft Saved Games Files On Mac & Windows

You or a loved one might be interested in finding Minecraft game save files on a Mac, or Windows PC.

You can save game files to your computer and store them in the cloud. It is vital to save game data due to the amount of time people put into Minecraft. Let's now see where these files are on Mac and Windows.

## Minecraft Save Game Files location on Mac OS

All Mac OS X versions can locate saved games at this location:

```
~/Library/Application Support/minecraft
```

To quickly get to the destination you want, you can either paste the file path in Finder's "Go To Folder" command (Command+Shift+G), Or in Spotlight by pressing command+spacebar

You can also access this information from Finder by selecting the Go menu and holding down Option. Next, navigate to "Application Support" and then to "Minecraft".

## Minecraft Save Game Location on Windows PC

The following location can be used to locate Minecraft saved game files on Windows PCs:

```
C:\Users\USERNAME\AppData\Roaming\.minecraft
```

Replace USERNAME by your user account.

You can also manually navigate there by opening Windows Explorer. To do this, open your user home directory and go to AppData, then Roaming, then into.minecraft.

Minecraft-servers-list

You can add and remove saved game files from either Mac or PC. These directories will be available when Minecraft is opened in single-player mode.

Happy minecrafting!
