Sign in with Windows Hello or a security key

Back

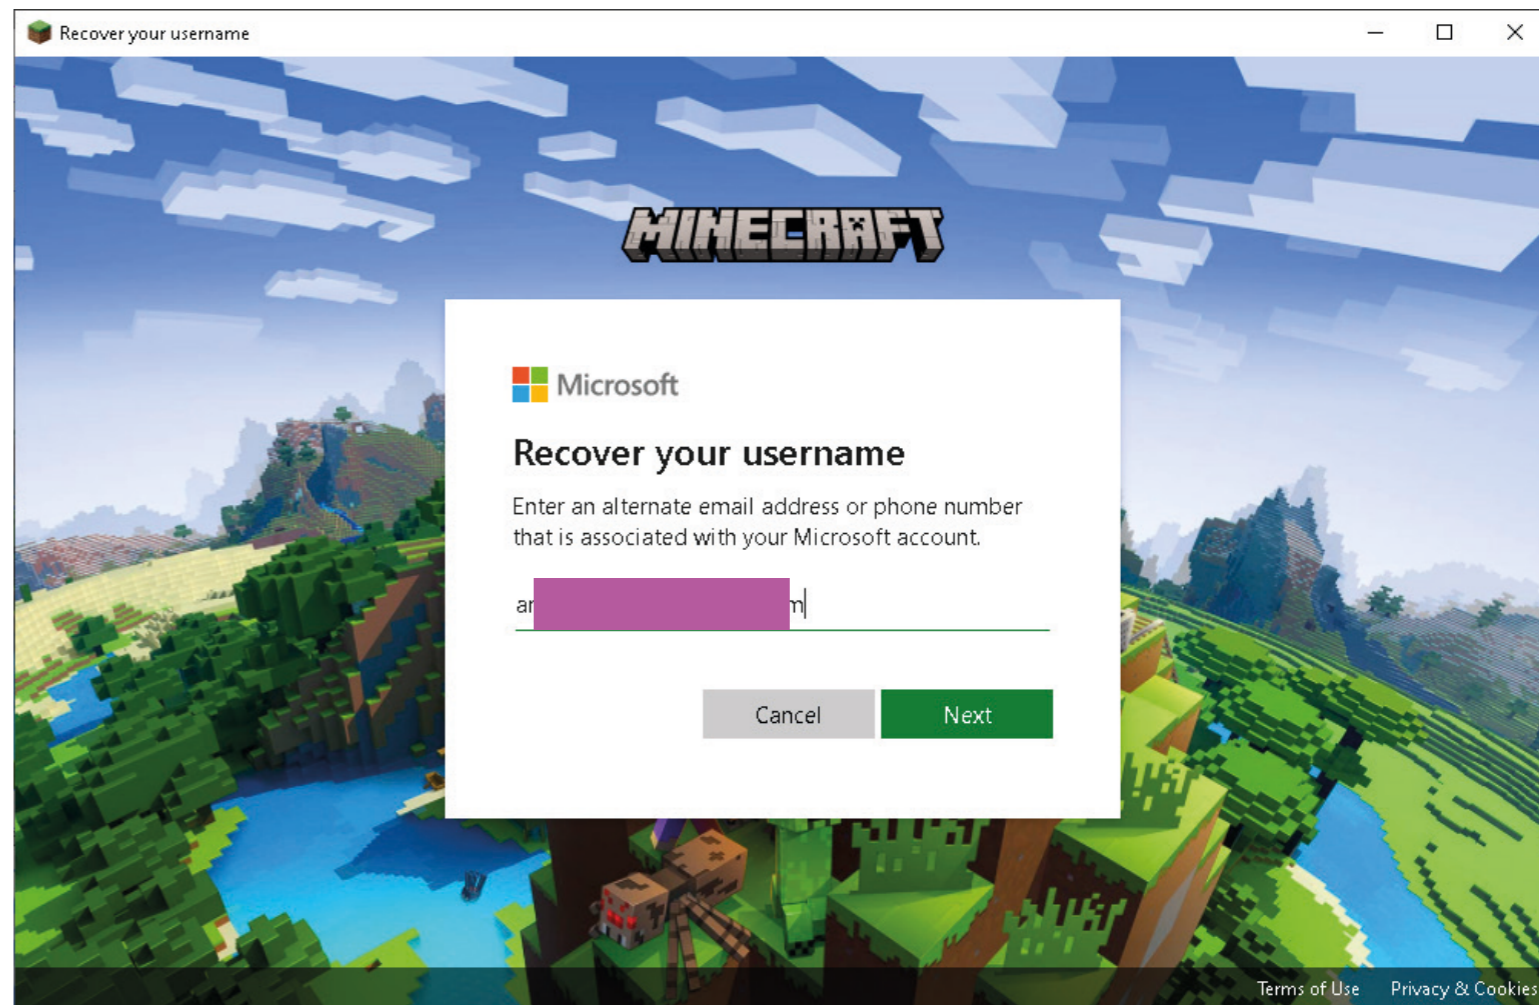

Next

 Sign-in options

Then I enter my email address i used for that acc

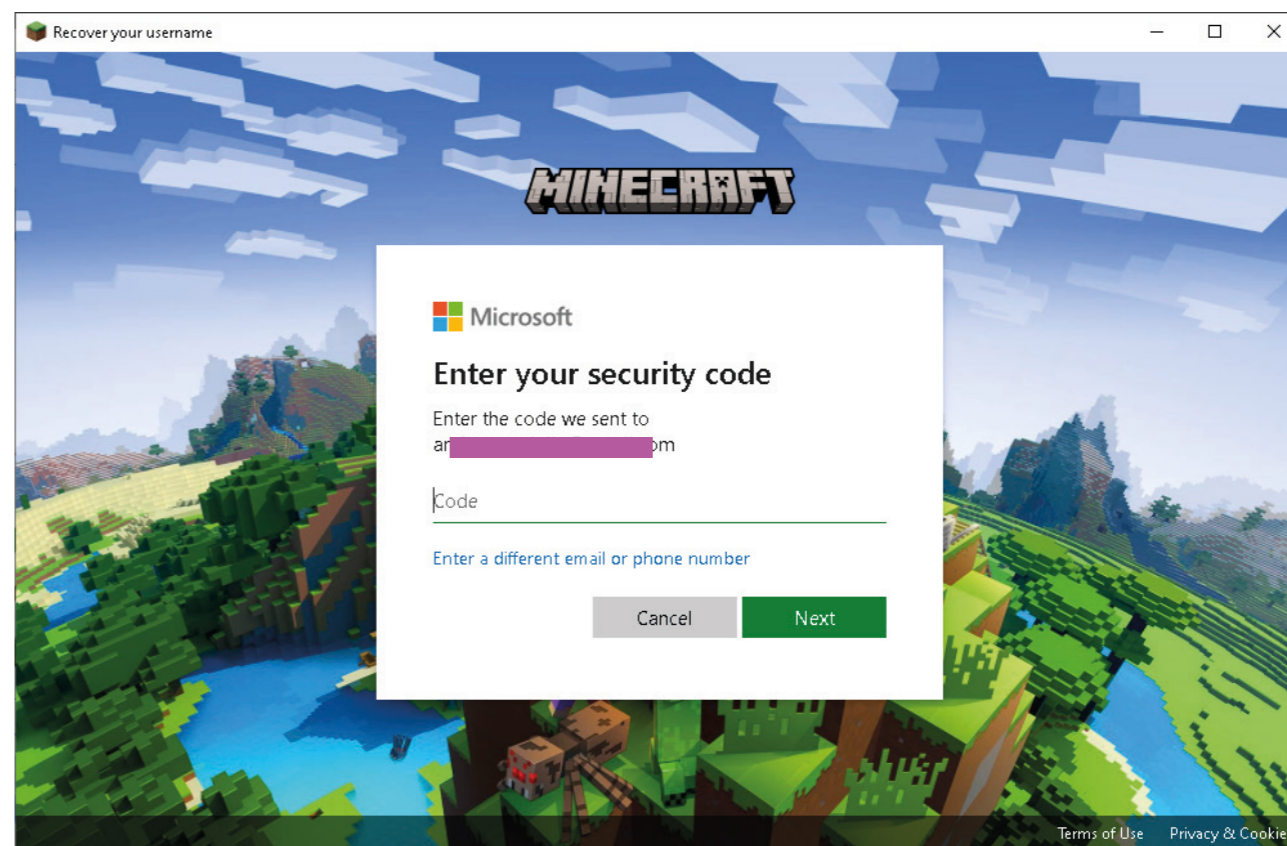

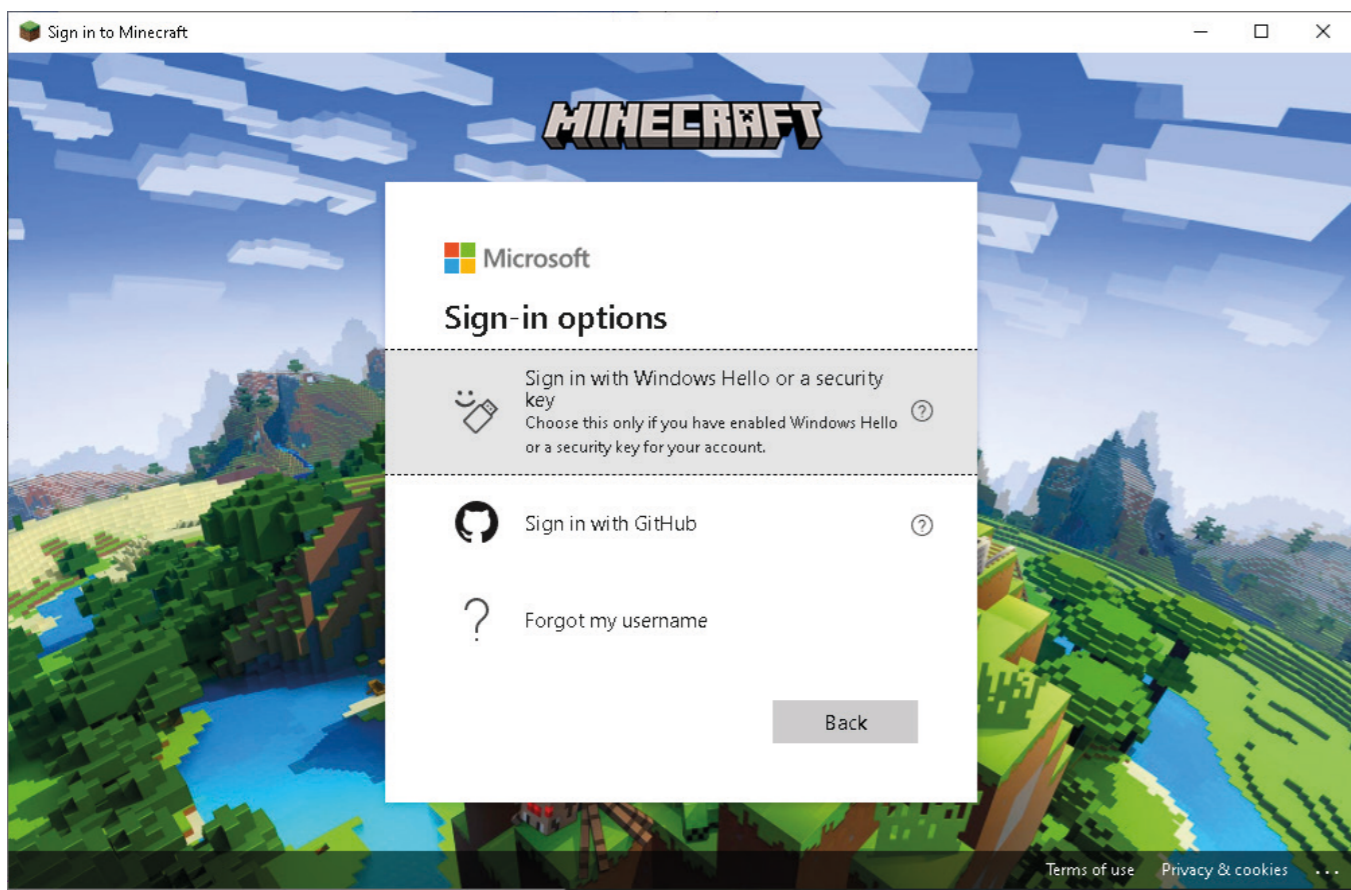

It shows this so I enter the email i used for that acc

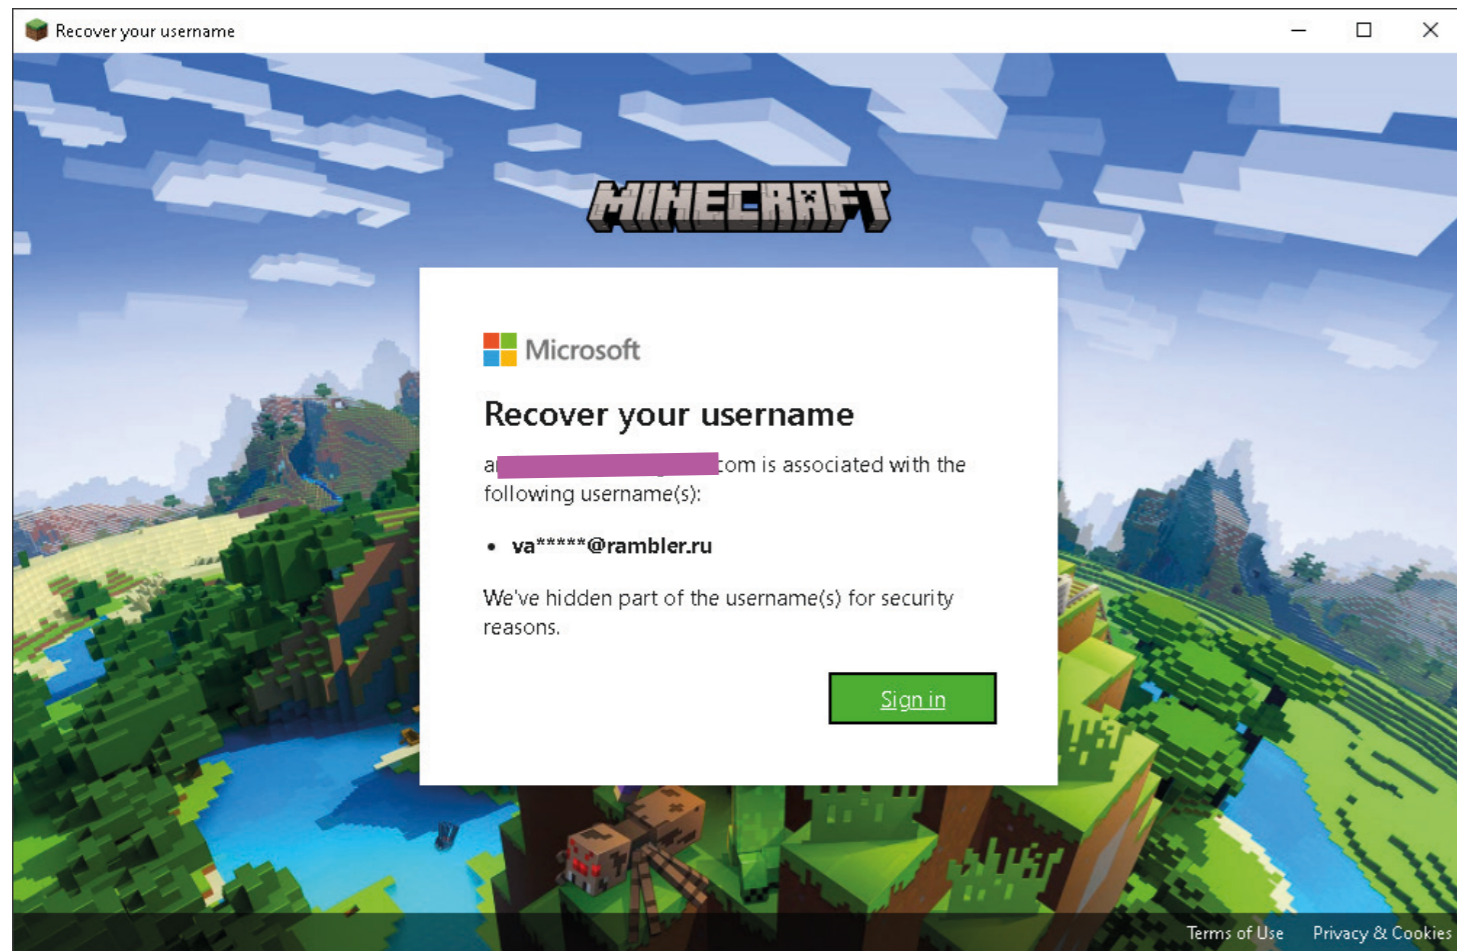

I press next and it shows this

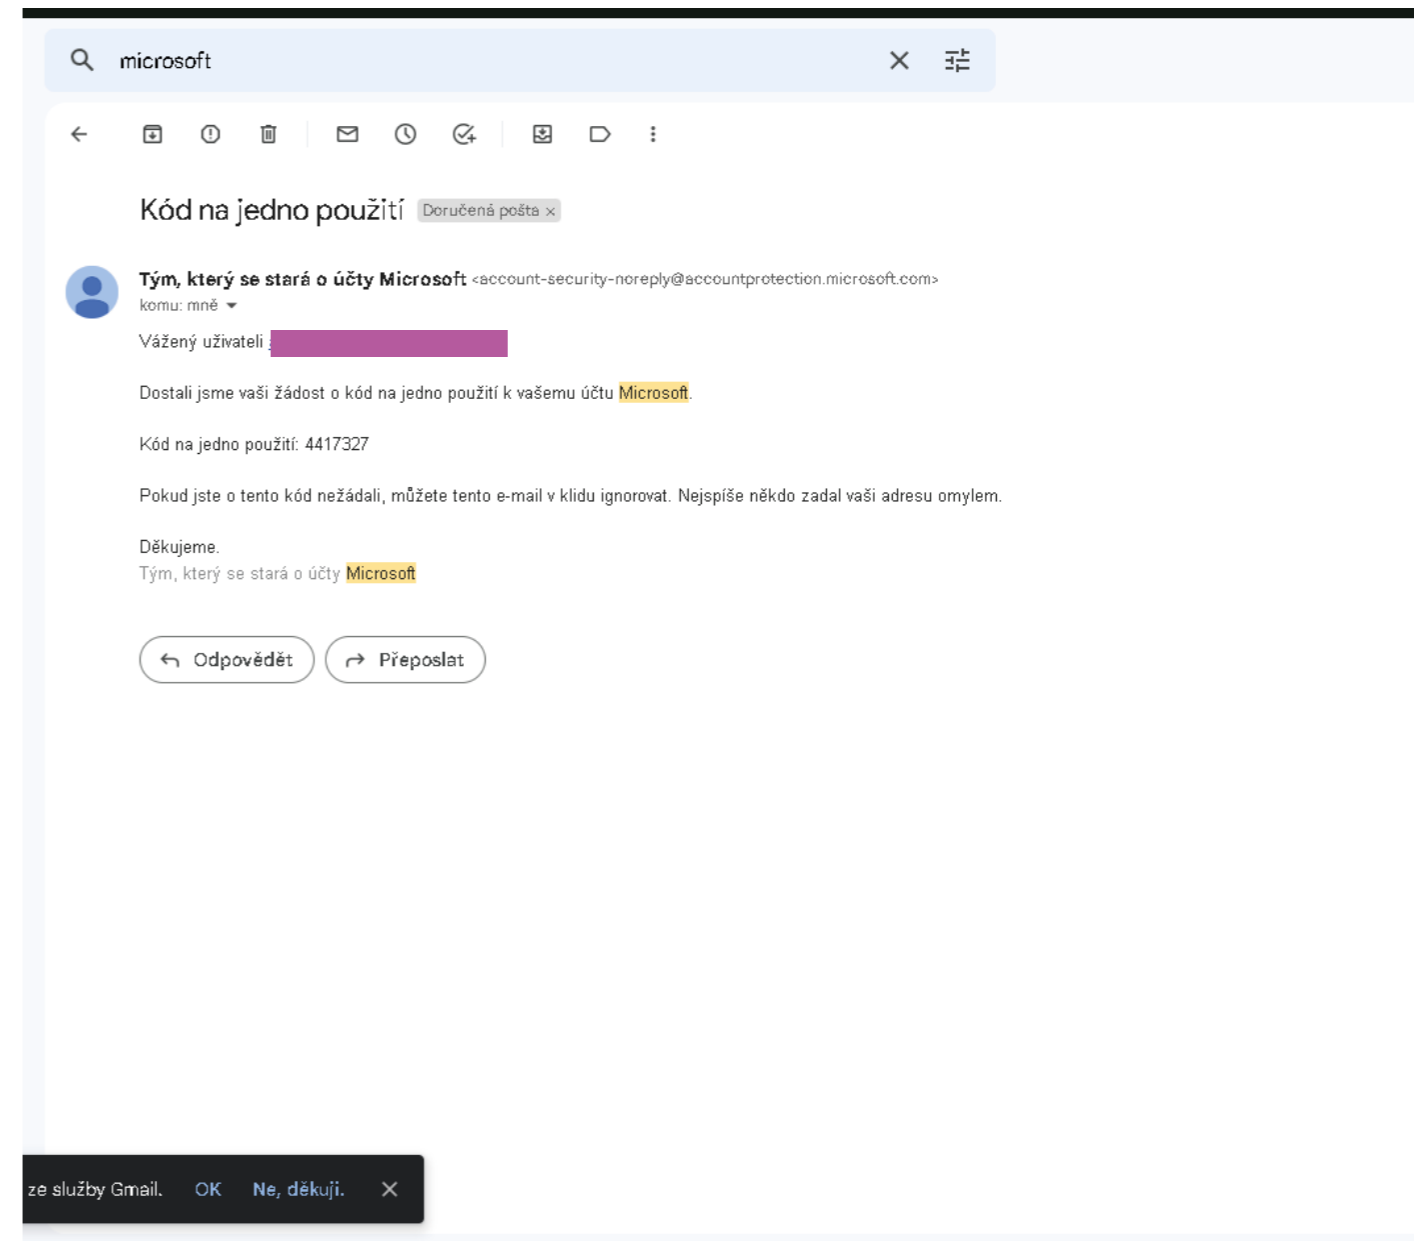

So I tried different sign in options and I choose forgot my username

I enter the code and i got this which is not the account name i had for this account which u can see in the first image + im not russian

On my mail the last thing i received about my acc other that this code is this, which is email that someone wanted a code for one use for my acc and then there is complete silence

So everytime i try to login it says that there is no account with that email and my username was also changed, what should i do?
