

'Minecraft' Novel in the Works by 'World War Z' Author

With Microsoft's billions behind it, Minecraft's momentum is showing no signs of slowing. Minecraftservers.vip The game is now compatible with VR and has the ability to customize its world with Add-Ons, the movie has a release date (although it is in 2019) and in the near future, it's set to have its very own official novel. Mojang has confirmed that the upcoming book called Minecraft: The Island, is written by none other than Max Brooks, the scribe behind the apocalyptic zombie novel World War Z.

Marsh Davies, Mojang's Mojang Marsh Davies, Mojang's Mojang "Think cuboid Robinson Crusoe but madder: A hero stranded on an unknown land with untested rules, and learning to survive against adversity." "I have a look at the first draft and it's absolutely stunning as we had hoped it would be."

It's not clear when the book will be released or if it will be linked to the film, but it is likely that it will be the first in a series of. Publishing house Del Rey -- the science fiction branch of Penguin Random House -- is in charge of everything and the company has already stated that it's "fortunate to have someone of Max's incredible talent and passion in the helm for the start of the series."

Parents will likely be accountable for more money, but some will be pleased for the fact that Minecraft is expanding its reach into education. Minecraft Education Edition will assist teachers starting November 1st. The release of the novel can only further childrens' love of reading.
